Preface

The National Energy Information Center (NEIC), as part of its mission, provides energy information and referral assistance to Federal, State, and local governments, the academic community, business and industrial organizations, and the general public. The two principal functions related to this task are (1) operating a general access telephone line and (2) responding to energy-related correspondence addressed to the Energy Information Administration (EIA). To assist the NEIC staff, as well as other Department of Energy (DOE) staff, in directing inquiries to the proper office within DOE or other Federal agencies, the *Energy Information Directory* was developed.

This directory is a list of many of the government offices that are involved in energy matters. The offices are classified according to their specialities. For the purposes of this publication, each office has been given an alphanumeric identification symbol (A-01, A-02, etc.). The subject index uses these identification symbols instead of page numbers in referring the reader to relevant entries. Most entries provide an abbreviated office address. For the complete address, consult the index of Building Locations. Following the name and title is the DOE routing symbol that refers to the organization and is a part of the mailing address.

Because DOE continually undergoes organizational changes, it is possible for the information contained in this directory to have changed by the time it goes to press. The entries are current as of May 31, 1985.

Significant changes were made in this edition to entries in Section J, Energy Conservation, and Section Q, Renewable Energy Sources, because of the current reorganization of Conservation and Renewable Energy, DOE. These changes were made during the first week in August 1985. Other significant changes include consolidating several entries in Section E, Public Affairs, and moving the Energy Emergencies entries from Section K to Section U, Energy Emergencies. Section K is now titled Environment.

If you should encounter difficulties in reaching anyone listed in the directory or if you are requesting information from EIA, call the NEIC at (202) 252-8800. The DOE employee locator number is (202) 252-5000. If you encounter a problem in receiving a timely or responsive answer to an inquiry, please contact John E. Daniels, Director, National Energy Information Center, (202) 252-2363.

This directory is published semiannually, with each issue superseding the previous issue. The publication is free and can be obtained from NEIC.

We welcome your comments on the appropriateness and accuracy of the entries in this publication. Please feel free to write to the following address with suggestions, changes, or corrections:

National Energy Information Center
Energy Information Administration
U.S. Department of Energy
EI-20, Forrestal Building
Washington, D C 20585
(202) 252-8800

We hope this directory will be a useful referral guide for obtaining answers to energy questions.

A. Business

Inventions

A-01 ENERGY-RELATED INVENTIONS PROGRAM
Office of Energy Utilization Research
Deputy Assistant Secretary for Conservation
Conservation and Renewable Energy, DOE

Jack Vitullo, General Engineer Supervisor
FORSTL, CE-14, Room 6B113
(202) 252-9104
FTS 252-9104

Identifies, evaluates, and supports promising energy-related inventions and innovative technology, particularly that generated by individuals and small businesses. The program performs invention evaluation services for approximately 2,000 inventions a year through the National Bureau of Standards.

A-02 OFFICE OF ENERGY-RELATED INVENTIONS
National Bureau of Standards
Department of Commerce
Gaithersburg, Maryland 20899

George Lewett, Chief
(301) 921-3694
FTS 921-3694

Sandy Wean (for program information)
(301) 921-3694
FTS 921-3694

Evaluates nonnuclear energy-related inventions to determine their technical and commercial feasibility, energy conservation or supply value, and practicability; formulates recommendations for DOE funding if the technology is promising. Applicants must submit a detailed technical description of the invention and complete the *Energy-Related Inventions Evaluation Request Form* (NBS-1019); the review process takes from 2 to 8 months. This office works in conjunction with the DOE Energy-Related Inventions Program.

A-03 OFFICE OF BUSINESS LOANS
Small Business Administration (SBA)

Contact local SBA office

Provides, through SBA local offices, loan guarantees of up to $500,000 to help small businesses market and/or manufacture products in any of the following categories: solar cells and related equipment; solar thermal energy equipment; any device or technique that helps existing equipment, methods of operation, or systems to conserve fossil fuels; bioconversion of wood, biological waste, grain, and so on; industrial cogeneration, district heating, or industrial waste; hydroelectric power equipment; and wind energy equipment. Loans are administered at the local level.

Procurement Policy

A-04 DOCUMENT CONTROL SPECIALIST
Department of Energy
P.O. Box 2500
Washington, DC 20013-2500

Pat Wyatt
MA-451.1, Room 1J005

Answers requests for information concerning DOE Requests for Proposals (RFP's) that are listed in the Federal *Commerce Business Daily*. All requests must be in writing.

A-05 OFFICE OF POLICY
Procurement and Assistance Management
Directorate
Management and Administration, DOE

Steve Mournighan (for program information)
FORSTL, MA-421, Room 8H023
(202) 252-8185
FTS 252-8185

Serves as a central point of contact to discuss business matters related to DOE procurement and contract policies, procedures, and other general business.

A-06 PRIORITIES AND ALLOCATIONS SUPPORT FOR ENERGY PROGRAMS
Office of Policy
Procurement and Assistance Management
Directorate
Management and Administration, DOE

Gilbert J. Breer
FORSTL, MA-422, Room 8H089
(202) 252-4920
FTS 252-4920

BEST COPY AVAILABLE

Receives requests for priority rating authority for industrial material and equipment that are required for the timely completion of energy programs and projects that maximize domestic energy supplies. Purchase orders bearing priority ratings take precedence over orders without ratings. The request for rating authority must be filed on DOE Form PR-437. This program is further described in *Priorities and Allocations Support for Energy: Keeping Energy Programs on Schedule* (DOE/PR-0042).

A-07 OFFICE OF SMALL AND DISADVANTAGED BUSINESS UTILIZATION
Office of the Secretary, DOE

(202) 252-8203
FTS 252-8203

Responsible for DOE's small business programs, including disadvantaged business, women-owned business, and labor surplus areas. This includes goal setting, initiatives, and achievements. This office provides guidance to DOE Headquarters program offices and field buying offices. One of the major functions is counseling small business individuals and firms on how to do business with DOE.

See also Section T.

B. Consumer Affairs

See also F-25 and F-26.

B-01 CONSUMER AFFAIRS
Congressional, Intergovernmental, and Public Affairs, DOE

Rose F. Bates, Director
FORSTL, CP-63, Room 8G026
(202) 252-5373
FTS 252-5373

Analyzes how DOE policies affect the public. The office has ongoing responsibility for policy input. For specific program information, it refers consumers to the appropriate DOE contact.

B-02 PUBLIC REFERENCE SERVICE
Federal Trade Commission
6th and Pennsylvania Avenue, N.W.
Washington, DC 20580

(202) 523-3598
FTS 523-3598

Answers telephone and written inquiries from consumers. It also distributes Commission documents.

C. Education

C-01 DIVISION OF UNIVERSITY AND INDUSTRY PROGRAMS
Field Operations Management
Energy Research, DOE

Richard E. Stephens, Director
FORSTL, ER-44, Room 3F077
(202) 252-8949
FTS 252-8949

Education and Training Program

John Ortman
FORSTL, ER-44, Room 3F077
(202) 252-1634
FTS 252-1634

Supports precollege engineering programs for minorities and women at universities and DOE laboratories. The office also administers the DOE Special Awards Program at the International Science and Engineering Fair.

Laboratory Programs

Harold H. Young
FORSTL, ER-44, Room 3F077
(202) 252-6833
FTS 252-6833

Administers the University-Laboratory Cooperative Program, a special energy research participation program involving both the DOE energy research laboratories and the academic community. The office is also responsible for the University Reactor Fuel Assistance Program.

D. International Affairs

D-01 INTERNATIONAL RESEARCH AND DEVELOPMENT POLICY
International Affairs and Energy Emergencies, DOE

Dr. Harold Jaffe, Acting Director
FORSTL, IE-12, Room 7C034
(202) 252-5918
FTS 252-5918

Responsible for coordinating and assisting the development of energy research and development cooperation (nuclear and nonnuclear); developing, coordinating and implementing policies and activities for bilateral and multilateral scientific and technological collaboration; and developing policies for trade issues, foreign travel, and other related matters.

D-02 OFFICE OF INTERNATIONAL ENERGY ANALYSIS
International Affairs and Energy Emergencies, DOE

John Brodman, Acting Director
FORSTL, IE-14, Room 7C034
(202) 252-5915
FTS 252-5915

Monitors and analyzes world energy market developments and the international political, economic, and strategic factors that influence these developments; recommends policies on international energy security issues; manages the U.S. government's

BEST COPY AVAILABLE

participation in international organizations comprised of consuming and producing nations; and ensures the integration of factors relevant to overall international energy policies and analyses. Functions are performed through two Divisions: the Division of Energy Assessments and the Division of International Energy Organizations and Policy Development. The former concentrates on analysis of energy supply and demand trends, while the latter focuses on issues related to U.S. participation in policy and planning organizations involving the international community.

E. Public Affairs

E-01 OFFICE OF PUBLIC AFFAIRS
Department of Energy
FORSTL, CP-24, Room 1E218
1000 Independence Avenue, S.W.
Washington, DC 20585

(202) 252-6827
FTS 252-6827

Responsible for establishing policy and providing oversight of the DOE's public affairs activities. The Office manages and reviews all audiovisuals and exhibits produced throughout DOE; manages and reviews all DOE publications for general distribution prior to printing; provides guidance, assistance, and evaluation to all DOE elements in developing and using audiovisuals exhibits and publications; writes and publishes the DOE's newspaper, *DOE This Month*; develops and maintains a printing negative program at no cost to the government printing of DOE publications; establishes policy for bulk distribution of general publications; produces written material describing DOE programs and policies in a variety of formats, including speech texts, talking points, letters to editors, magazine/journal articles, and fact sheets; receives speaking invitations for the Secretary/Deputy Secretary/Under Secretary, prepares background information for their consideration, and coordinates briefing books for out-of-town speaking engagements; receives speaking invitations for general DOE representatives and obtains speakers when possible; prepares calendars of speaking engagements; prepares and maintains a biography and photo file of DOE officials; operates a public inquiries service to respond to requests for information on DOE and its programs; and provides a newsclipping service for top DOE management.

Ann Morgan, Director
Office of Public Affairs
(202) 252-6827
FTS 252-6827

F. Chester Gray, Chief
Presentations and Audiovisuals Branch
(202) 252-4670
FTS 252-4670

John M. Sullivan, Chief
Editorial Services Branch
(202) 252-6250
FTS 252-6250

Robert J. Griffin, Chief
Speechwriting and Information Branch
(202) 252-5644
FTS 252-5644

Brigitte J. Tomlinson
Scheduling and Speakers' Branch
(202) 252-4292
FTS 252-4292

Martin Moon, Editor
DOE This Month
(202) 252-2050
FTS 252-2050

Public Inquiries
(202) 252-5575
FTS 252-5575

E-02 PRESS SERVICES DIVISION
Press Secretary to the Secretary, DOE
Office of Communications

Gail Bradshaw, Director
FORSTL, CP-22, Room 8G087
(202) 252-5806
FTS 252-5806

Produces news releases (excluding those from the Federal Energy Regulatory Commission and the Energy Information Administration) and answers inquiries from the media. The office provides answers to questions of a general nature in all program areas (including nuclear energy and national defense programs within DOE) for the news media. It arranges press conferences and media interviews for the Secretary of Energy and other DOE officials.

F. Information Services

Freedom of Information

F-01 FREEDOM OF INFORMATION AND PRIVACY ACTS ACTIVITIES BRANCH
Reference and Information Management
Administrative Services
Management and Administration, DOE

Ronald R. Turner, Acting Chief
FORSTL, MA-232.1, Room 1G051
(202) 252-5955
FTS 252-5955

Handles requests to DOE for information falling under the jurisdiction of the Freedom of Information Act and the Privacy Act. The office also provides analytical information.

Verlette Moore
Public Reading Room
FORSTL, MA-232.1, Room 1E190
(202) 252-6020
FTS 252-6020

Maintains copies of public comments, as well as transcripts of hearings and panels. There is a photocopying facility available to copy at 10 cents a page.

BEST COPY AVAILABLE

Information Centers

F–02 NATIONAL ENERGY INFORMATION CENTER
Information Referral Division
Energy Information Administration, DOE

FORSTL, EI-22, Room 1F048
(202) 252-8800
FTS 252-8800

Provides statistical and analytical energy data, information, and referral assistance to the government and private sectors, as well as the general public. Distributes EIA publications and single information copies of blank data survey forms. EIA publications sold through the Government Printing Office (GPO) may be purchased at NEIC. The Division provides search assistance for the Data Resources Directory (DRD), a metadata base of all EIA survey forms, files, tables, models, and data systems, and the Public Use Energy Statistics Data Base (PUESDB). EIA machine readable files sold through NTIS may be ordered from NEIC. The Division operates the EIA microfilm document control center providing access to data collection surveys and historical documents available to the public.

F–04 TECHNICAL INFORMATION SERVICE
Solar Energy Research Institute (SERI)
1617 Cole Boulevard
Golden, Colorado 80401

Stephen Rubin
(303) 231-7303
FTS 327-7303

BEST COPY AVAILABLE

Serves as the lead organization for advanced solar research and development. The technical inquiry service provides assistance to industry, business, and academic/research personnel. Central inquiry and referral services are provided to the general public through the Conservation and Renewable Energy Inquiry and Referral Service (see F-27).

Document Distribution Service

(303) 231-1243
FTS 327-1243

Responds to requests for single copies, prior to NTIS announcements, of selected SERI-produced technical reports and publications in hard copy or microfiche format for a fee.

F-05 HUD USER
P.O. Box 280
Germantown, Maryland 20874

(301) 251-5154

Operates a computer-based information service created by the Department of Housing and Urban Development (HUD). The HUD USER provides literature searches from HUD's data base, summaries of HUD research results, special products, and document distribution service. In the data base collection, energy and utilities information is included. Other information includes, but is not limited to, building technology, community development/public finance, elderly and handicapped, environmental research, housing finance, housing management, and housing programs. HUD USER does charge for service and handling of information and documents; make checks payable to HUD USER.

F-06 PUBLIC DISCLOSURE
U.S. Synthetic Fuels Corporation
2121 K Street, N.W., Suite 303
Washington, DC 20586

Catherine McMillan, Director
(202) 822-6460

Responds to public inquiries about the U.S. Synthetic Fuels Corporation and provides referrals within the Corporation. Copies of nonconfidential Corporation records are available in a public reading room maintained by the Public Disclosure Office. The Office also answers Section 121 requests. The U.S. Synthetic Fuels Corporation is a quasi-governmental corporation established by the Congress to stimulate the development of a domestic synthetic fuels industry through financial incentives to the private sector. The financial incentives, which may be in the form of loan guarantees, price guarantees and purchase agreements, direct loans, or joint ventures, are to be used for construction and operation of commercial-scale facilities to produce liquid, gaseous, and solid fuels from coal, oil shale, and tar sands; and to produce hydrogen from hydrolysis. The U.S. Synthetic Fuels Corporation was established by the Energy Security Act (Public Law 96-294), which was signed June 30, 1980.

F-07 ALTERNATIVE FUELS DATA BANK
National Institute for Petroleum and Energy Research
P.O. Box 2128
Bartlesville, Oklahoma 74005

Russell Simkins, Chemical Engineer
(918) 337-4248
FTS 745-4248

Contains bibliographical information about publications and summaries of current research activities that deal with the use of fuels from nonpetroleum sources and nonconventional fuels in transportation applications. There is no charge for information and literature or data base searching.

F-08 OAK RIDGE NATIONAL LABORATORY (ORNL)
P.O. Box Y (FEDC)
Oak Ridge, Tennessee 37831

Office of Technology Applications
(615) 574-4192
FTS 624-4192
(615) 574-5953
FTS 624-5953

Performs research supported by DOE on a broad range of energy-related problems and provides technical information and assistance on energy research for State and local governments and the private sector. Areas of research include fossil, nuclear, fusion, conservation, and environmental. Reports on technology applications are available. The office provides a central referral service for ORNL.

F-09 HAZARDOUS MATERIALS INFORMATION SYSTEM (HMIS)
Materials Transportation Bureau
Research and Special Programs Administration
Department of Transportation
400 7th Street, S.W., Room 8112
Washington, DC 20590

Robert A. McGuire, Acting Manager
Information Systems
DMT-63
(202) 472-1024
FTS 472-1024

Serves as a centralized computer-maintained management information system supporting the multimodal transportation of hazardous materials. HMIS provides direct retrieval, through six major subsystems, of the available information on incident data, inspection/enforcement results, indexes of regulations, interpretation of regulations, status of approvals, and status of exemptions. Requests for information will be honored. Limited direct access can also be arranged.

F-10 BUREAU OF ALCOHOL, TOBACCO, AND FIREARMS (ATF)
Department of the Treasury

BEST COPY AVAILABLE

Washington, DC 20226

John C. Killorin
Public Affairs Branch
(202) 566-7135
FTS 566-7135

Maintains pamphlets and factsheets about the Bureau's history and responsibilities and about the production of alcohol fuel and gasohol. The office provides ATF news releases and information about Federal laws and ordinances that affect trade in and licensing of alcohol, tobacco, firearms, and explosives.

F-11 NATIONAL RIDESHARING INFORMATION CENTER

Department of Transportation
400 7th Street, S.W., Room 3301, HHP-24
Washington, DC 20590

(202) 426-0210
FTS 426-0210

Operates a clearinghouse and referral service for ridesharing (car pooling and van pooling) information nationwide.

F-12 TENNESSEE VALLEY AUTHORITY (TVA)

Power and Engineering
670 Chestnut Street, Tower II
Chattanooga, Tennessee 37401

Carl Crawford, Manager of Power
and Engineering Information
(615) 751-3376
FTS 858-3376

Manages the dissemination of public information on TVA activities in nuclear, fossil/hydropower generation, energy conservation, and energy research/development activities, including atmospheric fluidized bed combustion and salt gradient solar ponds. Technical information on conventional generation sources is also provided, as well as the handling of visitor relations.

F-13 NATIONAL MINORITY ENERGY INFORMATION CLEARINGHOUSE

Minority Economic Impact, DOE

Cynthia J. Booze
FORSTL, MI-3.1, Room 5B110
(202) 252-5876
FTS 252-5876

Serves as a centralized repository for information about energy programs and the economic impact of those programs on minorities, minority businesses, and minority educational institutions. The services available from the Clearinghouse are: referrals to sources of management/technical assistance and procurement/research opportunites; identification of minority vendors; searches of DOE, Department of Commerce, and Small Business Administration data bases; regional socioeconomic and demographic data on minorities and energy use patterns; and referrals to sources that assist in energy development for minority communities.

Libraries

F-14 GENERAL COUNSEL LAW LIBRARY

General Counsel, DOE

Oscar Strothers, Librarian
FORSTL, GC-52, Room 6A156
(202) 252-4848
FTS 252-4848

Provides legal services for the Office of General Counsel and other DOE staff.

F-15 THE ENERGY LIBRARY

Provides DOE Headquarters staff with a wide variety of bibliographic and reference services. The Library is a major repository of energy-related information.

Forrestal Branch

Maria Vignone, Librarian
FORSTL, MA-232.22, Room GA138
(202) 252-9534
FTS 252-9534

Collects material on administrative and regulatory matters, nonnuclear research and development, energy conservation, and renewable energy sources.

Germantown Branch

Denise Diggin, Librarian
GTN, MA-232.21
(301) 353-4301
FTS 233-4301

Collects material on nuclear energy, fossil fuels, energy research, environmental protection, safety, and emergency preparedness.

F-16 FEDERAL ENERGY REGULATORY COMMISSION LIBRARY

825NCA, RC-601.4, Room 8502
Barbara M. Giersch, Chief of Library Section
(202) 357-5479
FTS 357-5479

Collects materials on regulatory matters about gas and electric utilities, oil and gas pipelines, and hydropower.

Scientific, Technical, and Educational Publications

F-17 NATIONAL TECHNICAL INFORMATION SERVICE (NTIS)

Department of Commerce
5285 Port Royal Road
Springfield, Virginia 22161

Serves as the central source for sale of U.S. and foreign government-sponsored research, development, and engineering reports and analyses. Mail orders are answered at the above address within 9 to 30 days. Order numbers and prices are available from the above address or by calling (703) 487-4650 or FTS 737-4650. Computerized information

BEST COPY AVAILABLE

searches of the entire NTIS data base are available for a fee by calling (703) 487-4642 or FTS 737-4642. For callers wishing to order after working hours, place order on telephone recording, giving order number and NTIS account or major credit card. More information on various products and services can be obtained by calling general information (703) 487-4600 or FTS 737-4600. NTIS also sells selected computer tapes produced by government agencies, including machine readable energy data files and energy modeling programs of the EIA. Anyone wishing additional information on documentation or acquisition of these computer tapes should contact Stuart Weisman, (703) 487-4808 or FTS 737-4808.

F-18 SUPERINTENDENT OF DOCUMENTS
U.S. Government Printing Office (GPO)
Washington, DC 20402

(202) 783-3238

U.S. Government Printing Office Bookstore
World Savings Building
720 North Main Street
Pueblo, Colorado 81003

Alene Pichler, Manager
(303) 544-3142
FTS 323-9371

Handles the public sale of Federal government publications, including selected DOE and EIA statistical, technical, and educational publications. General publications on energy and other areas of interest to the consumer are also available. The Western office quotes prices and availability on phone and mail requests and also will obtain publications not on hand at time of request. Each office responds to requests from all 50 States and from requestors in foreign countries. Telephone orders are accepted only from those with a GPO account, Visa, Mastercard, or government purchase order; remittance in the form of a check or money order must accompany all other orders.

F-19 'FEDERAL ENERGY GUIDELINES'
Hearings and Appeals, DOE

Donald G. Bradley, Manager
FORSTL, HG-40, Room 6F055
(202) 252-2400
FTS 252-2400

Publishes the *Federal Energy Guidelines* on a weekly basis. A set of loose-leaf publications dealing primarily with DOE programs, certain other Federal energy activities, and general data regarding energy policy are produced from an automated data base. Federal and State government offices that require this information can obtain copies of the *Federal Energy Guidelines* from this office. Nongovernment offices can obtain a subscription by contacting:

Commerce Clearing House, Inc.
4025 West Peterson Avenue
Chicago, Illinois 60646
(312) 583-8500

Technical Information Management

F-20 OFFICE OF SCIENTIFIC AND TECHNICAL INFORMATION (OSTI)
Department of Energy
P.O. Box 62
Oak Ridge, Tennessee 37831

Manages the technical information program of DOE. OSTI collects, evaluates, analyzes, stores, and disseminates energy information resulting from DOE-funded research and development, as well as relevant technical literature produced worldwide for use by the DOE community. OSTI is a central processing and distribution point for scientific and technical reports generated by DOE programs, including reports with classified and limited distribution. OSTI maintains the DOE Energy Data Base (EDB) with over 2.0 million citations to technical energy literature; maintains the central DOE Research in Progress (RIP) data base; publishes abstract journals and bibliographies; provides online retrieval through DOE/RECON; offers microfiche publication services for technical reports to DOE and its contractors; works with technical program offices to assist them with special technical information needs; represents DOE in international technical information exchanges (including IAEA, IEA, and bilaterals) and provides technical energy information through NTIS for sale to the public.

General
(615) 576-6837
FTS 626-6837

Public Inquiries
(615) 576-1541
FTS 626-1541

Information Services
(615) 576-1194
FTS 626-1194

Technical Reports
(615) 576-1301
FTS 626-1301

Energy Data Base (EDB)

FTS 626-1155

F-21 NATIONAL ENERGY SOFTWARE CENTER (NESC)
Argonne National Laboratory
9700 South Cass Avenue
Argonne, Illinois 60439

Margaret K. Butler, Director
(312) 972-7250
FTS 972-7250

Operated under contract for the DOE's Office of Scientific and Technical Information (OSTI), NESC serves as the DOE's software exchange and information center. In this role, the Center collects, packages, maintains, and distributes a library of computer software and data compilations developed in DOE program activities; checks library

BEST COPY AVAILABLE

software to make certain the packages are complete, executes test cases to ensure they operate as described, and provides assistance and consultation on implementation and use; and prepares and publishes abstracts describing the software packages in the Center collection. The Center also serves as the focal point for DOE participation in the Federal Software Exchange Program and helps DOE and its contractors obtain needed software from commercial sources. NESC communicates with and arranges for exchanges with other U.S. government software centers and with foreign computer program libraries.

Films

F-22 NATIONAL AUDIOVISUAL CENTER
National Archives and Records Service
8700 Edgeworth Drive
Capitol Heights, Maryland 20743-3701

Information Services
(301) 763-1896
FTS 763-1896

Telecommunications for the Deaf
(301) 763-4385

Distributes audiovisual programs produced by the Federal government. The Center also provides captioned films for the deaf. Audiovisual materials can be leased or purchased by the general public at low cost, but are not available on free loan. Free information services and publications of the Center include: subject catalogs of audiovisual holdings, with one on environment and energy conservation, and film loan referrals to other agencies.

Maps

F-23 GEOLOGIC INQUIRIES GROUP (GIG)
U.S. Geological Survey
Department of the Interior
907 National Center
Reston, Virginia 22092

(703) 860-6517
FTS 928-6517

Answers questions on all aspects of geology. This office answers questions on topics such as earthquakes, energy resources, the geology of specific areas, and geologic maps and mapping. Information on geologic map indexes and a limited number of copies are also available from GIG. Both written and telephone requests are handled by this office or are referred to the appropriate information source within USGS.

F-24 ENERGY RESOURCE MAPS

Eastern Region

U.S. Geological Survey
Department of the Interior
Eastern Distribution Branch
1200 South Eads Street
Arlington, Virginia 22202

(703) 557-2781
FTS 557-2781

Western Region

U.S. Geological Survey
Department of the Interior
Western Distribution Branch
Box 25286, Federal Center
Denver, Colorado 80225

(303) 234-3832
FTS 234-3832

Distributes maps of energy resources in the United States. The maps vary in price. Contact these offices for an index of map titles and ordering information. Topographic maps are available.

Federal Hotlines

F-25 CONSUMER PRODUCT SAFETY COMMISSION
Washington, DC 20207

(800) 638-CPSC

Answers inquiries about most major consumer products. The Commission does not answer questions about food, drugs, cosmetics, radioactive materials, motor vehicles, credit, environmental conditions, medical devices, boats, or firearms.

F-26 OFFICE OF COMPLIANCE AND CONSUMER ASSISTANCE
Interstate Commerce Commission
Washington, DC 20423

Six Regional Offices:

(404) 881-4371 (Atlanta area)

FTS 257-4371

(617) 223-2372 (Boston area)

FTS 223-2372
(212) 264-1072 (New York; in Boston area)
FTS 264-1072

(312) 353-6204 (Chicago area)

FTS 353-6204

(817) 334-3101 (Fort Worth area)

FTS 334-3101

(215) 596-4062 (Philadelphia area)

FTS 596-4062

(415) 974-7011 (San Francisco area)

FTS 454-7011
(213) 688-4008 (Los Angeles; in San Francisco area)
FTS 798-4008

Assists with problems about the interstate transportation of household goods by household carriers. The office also has information on fuel reimbursements that are applicable to this mode of transportation.

BEST COPY AVAILABLE

F-27 CONSERVATION AND RENEWABLE ENERGY INQUIRY AND REFERRAL SERVICE
P.O. Box 8900
Silver Spring, Maryland 20907

(800) 523-2929 (Continental United States)
(800) 462-4983 (Pennsylvania only)
(800) 233-3071 (Alaska and Hawaii)

Provides information on the full spectrum of renewable energy technologies and energy conservation, including active/passive solar, solar thermal, photovoltaics, wind, biomass, alcohol fuels, hydroelectric, geothermal, and ocean thermal energy. In addition, the Service maintains contact with a nationwide network of public and private organizations that specialize in highly technical or regionally specific information. The Service is the successor to the National Solar Heating and Cooling Information Center.

F-28 OFFICE OF TECHNOLOGY SHARING
DTS-31
Transportation Systems Center
Department of Transportation
Kendall Square
Cambridge, Massachusetts 02142

R.V. Giangrande, Chief
(617) 494-2486
FTS 837-2486

(800) 225-1612 (Continental United States)
(800) 842-1151 (Massachusetts only)

Serves as the national research and development center for transportation systems design and for evaluative studies on various kinds of transportation programs. It has information on urban and community transportation programs; paratransit systems; 'dial-a-transit' programs; air, rail, and mass transit programs; transportation for the elderly and handicapped; and energy conservation in transit programs.

F-29 FEDERAL TAXPAYERS SERVICE LINE
Internal Revenue Service
Department of the Treasury

Provides information on tax problems including energy-related taxes and tax credits. For the toll-free number in your locality, consult the telephone directory under 'U.S. Government, Department of the Treasury, Internal Revenue Service.'

F-30 NATIONAL APPROPRIATE TECHNOLOGY ASSISTANCE SERVICE (NATAS)
U.S. Department of Energy
P.O. Box 2525
Butte, Montana 59702-2525

(800) 428-2525
(800) 428-1718 (Montana only)

Provides three primary services to help Americans implement energy-saving appropriate technologies: tailored information responses, engineering/scientific technical assistance, and commercialization technical assistance. NATAS provides more detailed technical assistance than other programs and helps entrepreneurs develop appropriate technology.

G. EIA Program Offices

Oil and Gas

G-01 PETROLEUM SUPPLY DIVISION
Oil and Gas
Energy Information Administration, DOE

Frank E. Lalley, Director
FORSTL, EI-42, Room 2G020
(202) 252-5844
FTS 252-5844

Designs, develops, and maintains statistical and projection information systems for crude oil and refined petroleum products. The office collects, processes, and analyzes the data needed to monitor and report the supplies of crude oil and petroleum products. The office also analyzes and projects the availability, production, imports, processing, transportation, stocks, and distribution of petroleum supplies.

G-02 PETROLEUM MARKETING DIVISION
Oil and Gas
Energy Information Administration, DOE

John S. Cook, Director
FORSTL, EI-43, Room 2G051
(202) 252-5214
FTS 252-5214

Designs, develops, and maintains information systems on crude oil and refined petroleum product prices and the petroleum industry market. The office provides regular statistical reports on heating oil, gasoline, and other refined product prices and on sales of fuel oil and kerosene. It also develops analyses, projections, and models of petroleum pricing and marketing patterns.

G-03 RESERVES AND NATURAL GAS DIVISION
Oil and Gas
Energy Information Administration, DOE

Diane W. Lique, Director
FORSTL, EI-44, Room BE064
(202) 252-6090
FTS 252-6090

Designs, develops, and maintains statistical and projection information systems for domestic oil and gas reserves and production, the natural gas industry, and interstate and intrastate natural gas pipelines. The office also performs data collection, processing, analysis, projections, and report preparation activities associated with oil, gas, and natural gas liquids reserves, resources, and capacity and supply estimates and natural gas and supplemental fuels consumption, production, costs, processing, transportation, and distribution.

BEST COPY AVAILABLE

Coal, Nuclear, Electric and Alternate Fuels

G-04 COAL DIVISION
Coal, Nuclear, Electric and Alternate Fuels
Energy Information Administration, DOE

Charles C. Heath, Director
FORSTL, EI-52, Room 2F021
(202) 252-6860
FTS 252-6860

Robert Harris, Chief
Data Systems Branch
FORSTL, EI-521, Room 2F021
(202) 252-2982
FTS 252-2982

Robert Schnapp, Chief
Data Analysis and Forecasting Branch
FORSTL, EI-522, Room 2F021
(202) 252-1760
FTS 252-1760

Manages data and information systems for all supply and demand aspects of coal. The office also collects and analyzes data and analyzes and projects coal supply, including production, prices, and distribution; identifies and analyzes coal reserves; examines new technologies that derive energy from coal; and studies existing and proposed legislation and regulations affecting coal supply and demand.

G-05 NUCLEAR AND ALTERNATE FUELS DIVISON
Coal, Nuclear, Electric and Alternate Fuels
Energy Information Administration, DOE

R. Gene Clark, Director
FORSTL, EI-53, Room BG057
(202) 252-6363
FTS 252-6363

Brian Poole, Chief
Data Systems Branch
(202) 252-9410
FTS 252-9410

Howard Walton, Chief
Data Analysis and Forecasting Branch
(202) 252-2009
FTS 252-2009

Manages the data information systems on all supply aspects of nuclear power and alternate fuels. The office also prepares analyses and projections on the availability, production, cost, processing, transportation, and distribution of nuclear and alternate energy sources. It prepares projections about energy supply and production from alternate energy forms, including solar, wind, and wood.

G-06 ELECTRIC POWER DIVISION
Coal, Nuclear, Electric and Alternate Fuels
Energy Information Administration, DOE

Mary J. Hutzler, Director
FORSTL, EI-54, Room 2G060
(202) 252-9863
FTS 252-9863

Edward Hill, Chief
Data Systems Branch
FORSTL, EI-541, Room 2F021
(202) 252-6516
FTS 252-6516

Robert Eynon, Chief
Data Analysis and Forecasting Branch
FORSTL, EI-542, Room 2G060
(202) 252-9850
FTS 252-9850

Directs programs to collect and analyze data on electric power supply, including capacity, generation, distribution, fuel use, finances, and rates. The office provides the Federal Energy Regulatory Commission (FERC) with the information that FERC needs to regulate electric power. It develops analytical models and prepares projections of capacity, generation, fuel use, costs, rates, financial requirements, and distribution of electric power, including nuclear, hydropower, and new central station technologies. It also analyzes the effects of policy and regulatory actions on the electric utilities' rates, costs, capacity, generation, distribution, finance, and consumption of input fuels.

Energy Markets and End Use

G-07 ENERGY END-USE DIVISION
Energy Markets and End Use
Energy Information Administration, DOE

Lynda T. Carlson, Director
FORSTL, EI-65, Room 1F093
(202) 252-1112
FTS 252-1112

Designs, develops, maintains, and analyzes the data information systems on energy consumption in the residential, commercial, industrial, and transportation sectors. The division analyzes and publishes data on energy end-use consumption by sector and by fuel type.

G-08 ENERGY ANALYSIS AND FORECASTING DIVISION
Energy Markets and End Use
Energy Information Administration, DOE

John D. Pearson, Director
FORSTL, EI-62, Room 1H055
(202) 252-6160
FTS 252-6160

Mark Rodekohr, Chief
Demand Analysis and Forecasting
(202) 252-5209
FTS 252-5209

Edward Flynn, Chief
Supply Analysis and Interaction
(202) 252-5748
FTS 252-5748

BEST COPY AVAILABLE

Designs, develops, and maintains energy statistical and projection information systems concerning energy situations in the short term (up to 18 months) and the intermediate term (primarily within the next 10 years). The division integrates supply and demand data for all energy sources. It also develops analytical models and prepares ad hoc analyses and projections of domestic short-term and intermediate-term energy issues.

G–09 INTERNATIONAL AND CONTINGENCY INFORMATION DIVISION
Energy Markets and End Use
Energy Information Administration, DOE

W. Calvin Kilgore, Director
FORSTL, EI-63, Room 1H087
(202) 252-1130
FTS 252-1130

Designs, maintains, reports, and documents both historical and projected information for an international energy program and a contingency or emergency information program for the EIA. The International Statistics Branch conducts an international energy data program that serves as the basis for historical international energy information published by the EIA, current international market assessments, international energy projections, contingency planning studies, and other quick response or special purpose analyses. In addition, the Branch is responsible for coordinating and reporting U.S. energy data to international organizations. The Analysis Branch develops, maintains, and documents analytical models for projections of international energy supply, demand, prices, and distribution. The Branch prepares quick response analyses, regular or planned international energy analysis reports, domestic and international contingency information and analyses, and periodic publication of its projections.

G–10 ECONOMICS AND STATISTICS DIVISION
Energy Markets and End Use
Energy Information Administration, DOE

Arthur T. Andersen, Director
FORSTL, EI-64, Room 1F077
(202) 252-1441
FTS 252-1441

Designs, develops, and maintains economic and financial energy statistical and projection information systems. The office also performs data collection, quality control, processing, analyses, projections, and report preparation activities associated with economic and financial matters. Periodic assessments of the U.S. energy situation are made. Additionally, it evaluates and interprets current trends and events in the U.S. and international energy situation.

Statistical Standards

G–11 OFFICE OF STATISTICAL STANDARDS
Energy Information Administration, DOE

Yvonne M.M. Bishop, Director
FORSTL, EI-70, Room 1H023
(202) 252-2222
FTS 252-2222

Develops standards and coordinates standard definitions that govern collection, documentation, and analysis of energy information. The office manages the energy information portion of the DOE forms clearance process as well as the burden budget. It also assesses the quality and significance of energy information and the processes used in collection, analysis, and projection.

H. Legislation, Policy, and Leasing

Congressional Affairs (DOE)

H–01 RESEARCH AND ANALYSIS
Congressional, Intergovernmental, and Public Affairs, DOE

Douglas A. Leiker, Director
FORSTL, CP-32, Room 8E070
(202) 252-8687
FTS 252-8687

Tracks daily action by the Congress on major energy legislation and provides current status of the legislation. The office provides briefing books and issue papers for DOE witnesses and compiles membership lists of congressional committees concerned with DOE programs. It prepares and distributes reports of daily congressional action, including all hearings, conferences, and committee markups.

Policy

H–02 OFFICE OF ECONOMIC ANALYSIS
Policy, Planning and Analysis, DOE

Glen Sweetnam, Director
Economic Analysis
FORSTL, PE-14, Room 7H063
(202) 252-5667
FTS 252-5667

Stephen Minihan, Director
Oil and Gas Analysis
FORSTL, PE-141, Room 7H034
(202) 252-6423
FTS 252-6423

Alexander H. Haynes, Acting Director
Energy Projections and Analysis
FORSTL, PE-142, Room 7H063
(202) 252-5388
FTS 252-5388

BEST COPY AVAILABLE

Glen Sweetnam, Acting Director
Integrated Economic Analysis
FORSTL, PE-12, Room 7H075
(202) 252-5667
FTS 252-5667

Prepares analyses and advises the Secretary of Energy on government policies affecting the discovery, production, refining, marketing, and consumption of oil and natural gas. The objective of the office is to promote free market policies and regulatory reform, thereby increasing the economic efficiency of oil and natural gas markets, increasing domestic consumer welfare, and reducing the Nation's vulnerability to energy supply disruptions. To accomplish this objective, the office is currently preparing analyses of natural gas legislation, restrictions on Alaskan oil exports, acquisition/drawdown policies for the Strategic Petroleum Reserve, domestic refinery policy, tax reform policy, and the Crude Oil Windfall Profits Tax.

H-03 OFFICE OF PLANNING AND ENVIRONMENT
Fossil Energy, DOE

David J. Beecy, Director
GTN, FE-13, Room B120
(301) 353-2782
FTS 233-2782

Raymond Braitsch, Deputy Director
(for program information)
(301) 353-2674
FTS 233-2674

Serves as policy, strategy, planning, and environmental health and safety coordinator for Fossil Energy. Responsibilities include the translation of DOE policy into Fossil Energy programmatic terms; the development of program strategies, initiatives, and planning documents; and the coordination of Fossil Energy participation in special issues such as coal exports, leasing of energy resources from Federal lands, Clean Air Act legislation, acid deposition, and energy transportation.

H-04 OFFICE OF ECONOMICS
Department of Transportation
400 7th Street, S.W., Room 10301
Washington, DC 20590

Donald J. Igo, Assistant for Energy Policy
(202) 426-0783
FTS 426-0783

Provides support for the development of transportation energy policy and provides review of major energy policy issues arising in various Department of Transportation programs.

H-05 OFFICE OF COMPETITION
Congressional, Intergovernmental, and Public Affairs, DOE

Leonard L. Coburn, Director
FORSTL, CP-64, Room 8G066
(202) 252-5740
FTS 252-5740

Provides policy analysis on energy competition for DOE. The office advocates market-based solutions for energy problems, analyzes the impact of competition for DOE activities, and identifies studies and proposes alternatives for energy policy. The office also provides expert testimony before the Congress and other administrative forums on energy competition matters.

H-06 INTERGOVERNMENTAL AFFAIRS
Congressional, Intergovernmental, and Public Affairs, DOE

William Tucker, Acting Director
FORSTL, CP-62, Room 8G026
(202) 252-5544
FTS 252-5544

Maintains ongoing liaison with State, local, Indian, and territorial governments to inform DOE of important issues and priorities of these constituents. The office provides these constituents with energy information concerning DOE programs, policies, and technical assistance.

Leasing

H-07 BUREAU OF LAND MANAGEMENT
Deputy Director for Energy and Minerals
Department of the Interior
18th and C Street, N.W.
Washington, DC 20240

Robert Lawton, Associate Deputy Director
Organization Code: BLM 500
(202) 343-4437
FTS 343-4437

George Brown, Assistant Director
(for program information)
Fluid Mineral Resources
(202) 343-3554
FTS 343-3554

Adam A. Sokoloski, Assistant Director
(for program information)
Solid Leasable Minerals
(202) 343-4352
FTS 343-4352

Responsible for the onshore leasing program, resource evaluation, and classification functions; environmental review of leasing activities; regulation of operations and lease management; and inspection and enforcement activities for all onshore leasable minerals.

H-08 MINERALS MANAGEMENT SERVICE
Department of the Interior
Washington, DC 20240

William D. Bettenberg, Director
(202) 343-3500
FTS 343-3500

BEST COPY AVAILABLE

Responsible for the offshore leasing program, resource evaluation, and classification functions; environmental review of leasing activities; regulation of operations and lease management; and inspection and enforcement activities for all leasable minerals on the Outer Continental Shelf (OCS). In addition, the Service is responsible for the collection of all royalty payments, rentals, bonus payments, fines, penalties, and assessments and for other revenues due the Federal government and Indian lessors as monies or royalties-in-kind from the extraction of mineral resources from Federal and Indian lands onshore and from the leasing and extraction of mineral resources on the OCS.

I. Regulation

Economic Regulatory Administration (ERA)

I-01 PUBLIC INFORMATION
Economic Regulatory Administration, DOE

Jane Register, Staff Assistant to the ERA Administrator
FORSTL, RG-1, Room 5B148
(202) 252-2972
FTS 252-2972

Serves as a public inquiry point for information on:

Natural gas

imports/exports and curtailment priorities; natural gas liquids price and allocation regulations that were in effect before January 28, 1981.

Petroleum

crude oil price and allocation regulations prior to January 28, 1981; special investigation and compliance audits of oil companies (viciations that occurred before January 28, 1981); non-Federal Energy Regulatory Commission (FERC) oil pipeline regulation.

Regulatory programs

regulatory programs allocating liquid natural gas; development, management, and direction of DOE's economic and regulatory programs other than FERC; monitoring of supply and price trends; administration of programs for the conversion of oil- and gas-fired utilities to alternate fuels; licensing of both exports of electricity from the United States and transmission lines crossing U.S. borders.

I-02 NATURAL GAS DIVISION
Fuels Programs
Economic Regulatory Administration, DOE

Paula Daigneault, Director
FORSTL, RG-23, Room GA007
(202) 252-9482
FTS 252-9482

Responsible for managing natural gas and liquefied natural gas import/export activities under the Natural Gas Act and the Natural Gas Policy Act. This comprises the review and consideration of applications for import and export licenses, as well as the conduct of generic and case-specific policy analysis, including the impact of various decontrol scenarios. The office is also responsible for setting natural gas interstate pipeline curtailment policies and proposing rules pertaining to natural gas to Federal Energy Regulatory Commission for consideration.

Federal Energy Regulatory Commission (FERC)

I-03 LEGISLATION, REGULATION AND CONGRESSIONAL AFFAIRS
Office of General Counsel
Federal Energy Regulatory Commission, DOE

Christopher J. Warner
Associate General Counsel
825NCA, RC-46, Room 8002
(202) 357-8440
FTS 357-8440

Develops regulatory policies, advises the Commission on pending rulemakings/cases/legislative matters, and serves as liaison with the Congress, including the committees of the Congress having oversight over matters affecting FERC.

I-04 INTERGOVERNMENTAL AFFAIRS
Office of Executive Director
Federal Energy Regulatory Commission, DOE

Joan Simmons, Director
825NCA, RC-96.2, Room 9200
(202) 357-8392
FTS 357-8392

Coordinates communication regarding FERC policies and procedures with State commissions; other units of Federal, State, and local government; and industry and consumer groups. The office also serves as an information source for FERC on relevant activities in other jurisdictions.

I-05 PUBLIC INFORMATION DIVISION
Office of Executive Director
Federal Energy Regulatory Commission, DOE

Rachelle Patterson, Director
825NCA, RC-6.1, Room 9200
(202) 357-8088
FTS 357-8088

Coordinates all public affairs functions using a variety of media sources. The office manages all information dissemination programs, acts as Commission representative on all Commission matters, disseminates press releases, and coordinates and oversees all media coverage. The office also manages three branches as listed below.

BEST COPY AVAILABLE

I-06 PUBLIC INQUIRIES BRANCH
Public Information
Office of Executive Director
Federal Energy Regulatory Commission, DOE

Heide Sanford, Chief
825NCA, RC-6.1, Room 1000
(202) 357-8055
FTS 357-8055

Serves as the public inquiry point for information on:

Natural gas

regulation of the transportation and sale of natural gas in interstate commerce; construction and operation of interstate natural gas pipeline facilities; establishment and enforcement of natural gas curtailment plans; implementation of the Natural Gas Policy Act.

Electric power

regulation of the interstate electric power industry, including the transmission and wholesale sale of electricity in interstate commerce; coordination of power-sharing between electric utilities; licensing of non-Federal hydroelectric projects; regulation of the security, issuances, and mergers of electric utilities.

Petroleum

regulation of the rates charged by oil pipelines for transporting oil in interstate commerce; establishment of oil pipeline valuations.

This office also handles requests to FERC for information falling under the jurisdiction of the Freedom of Information and the Privacy Acts. This office also fills written requests for FERC publications through the Government Printing Office as a sales agent.

I-07 PUBLIC REFERENCE BRANCH
Public Information
Office of Executive Director
Federal Energy Regulatory Commission, DOE

Ray Huber, Acting Chief
825NCA, RC-6.1, Room 1000
(202) 357-8118
FTS 357-8118

Handles inquiries from all sources about access to FERC files, documents, opinions, decisions, orders, and completed data survey forms; provides information on the status of cases and on Commission actions, policies, goals, and rules. Daily Commission Orders are provided on a continuous recording of all FERC orders, notices, opinions, and news releases that are issued at 10 a.m. and 3 p.m. daily.
(202) 357-8555
FTS 357-8555

I-08 MEDIA RELATIONS BRANCH
Public Information
Office of Executive Director
Federal Energy Regulatory Commission, DOE

Robert Cecil, Chief
825NCA, RC-6.1, Room 2214
(202) 357-8380
FTS 357-8380

Handles all inquiries and information requests from media personnel concerning FERC and furnishes published materials to the press.

Nuclear Regulatory Commission (NRC)

I-09 OFFICE OF PUBLIC AFFAIRS
Nuclear Regulatory Commission
Washington, DC 20555

(301) 492-7715
FTS 492-7715

Serves as a public inquiry point for information on:

A. licensing (including decommissioning) of commercial nuclear power plants and other nuclear facilities and the possession and use of nuclear materials for medical, industrial, educational, and research purposes.

B. inspections and investigations designed to assure that licensed activities are conducted in compliance with the agency's regulations and other requirements and enforcement of compliance.

C. confirmatory research in the areas of safety, safeguards, and environmental assessment and the establishment of regulations, standards, and guidelines governing the use of nuclear facilities and materials.

D. safeguarding of nuclear facilities and materials from diversion or sabotage.

E. implementation of agency responsibilities under the Nuclear Waste Policy Act of 1982 (high-level radioactive wastes), the Low-Level Radioactive Waste Policy Act of 1980, and the Uranium Mill Tailings Radiation Control Act of 1978.

F. packaging of radioactive materials for transport.

J. Energy Conservation

Appropriate Technology

J-01 NATIONAL CENTER FOR APPROPRIATE TECHNOLOGY
P.O. Box 3838
Butte, Montana 59702

Jon Sesso, Deputy Director
(406) 494-4572

Washington, DC Office

Joseph Sedlak, Executive Director
Peggy Wheeler, Director of Public Affairs
815 15th Street, N.W., Suite 938
Washington, DC 20005

BEST COPY AVAILABLE

Organized as an independent, nonprofit corporation funded by DOE and other Federal agencies to develop and apply appropriate technologies to specific energy needs of the American people and to promote locally based programs that develop individual and community self-reliance. The Center offers a comprehensive nationwide program of technical research and assistance, training, and information services. Requests for publications may be directed by letter or by phone to the information staff.

Buildings and Community Systems

J-02 BUILDING SYSTEMS DIVISION

Buildings and Community Systems
Deputy Assistant Secretary for Conservation
Conservation and Renewable Energy, DOE

James A. Smith, Director
FORSTL, CE-111, Room GF253
(202) 252-9835
FTS 252-9835

Focuses on how systems, subsystems, and components of buildings function, both separately and interactively. Research and development activities for improving energy efficiency of buildings are supported, as well as research in building envelope design and construction for application in new or existing buildings. Areas of application are energy-efficient window design; ventilation; infiltration; insulation; indoor air quality; diagnostics; heat transfer; infra-red thermography; and energy-analysis calculations. The Division also conducts field tests and validation of building energy science technologies.

J-03 BUILDING SERVICES DIVISION

Buildings and Community Systems
Deputy Assistant Secretary for Conservation
Conservation and Renewable Energy, DOE

Joseph E. Holmes, Director
FORSTL, CE-115, Room GH068
(202) 252-9389
FTS 252-9389

Studies energy conservation at the community level. The program promotes total energy management in community planning and design. The office develops technologies, concepts, and methodologies that will accelerate the application of community energy systems, utilizing both renewable resources and low-grade waste heat. The research includes the development and testing of district heating and cooling.

J-04 FEDERAL ENERGY MANAGEMENT PROGRAM STAFF

Deputy Assistant Secretary for Conservation
Conservation and Renewable Energy, DOE

J. Wm. Bethea, Director
FORSTL, CE-116, Room GF277
(202) 252-9430
FTS 252-9430

Coordinates policy planning and monitors the energy usage of Federal agencies in Federal buildings and operations. More specific responsibilities of the office include the President's Ten-Year Building Conservation Plan and life-cycle costing. Technical transfer activities include workshops covering life-cycle costs, energy and design, shared savings-contracts, and employee awareness.

J-05 BUILDING EQUIPMENT DIVISION

Buildings and Community Systems
Deputy Assistant Secretary for Conservation
Conservation and Renewable Energy, DOE

Theodore Kapus, Director
FORSTL, CE-112, Room GF217
(202) 252-9123
FTS 252-9123

Provides the long-range technical support needed to supply the private sector with the technological basis for developing and testing high-efficiency equipment utilized in the operation of residential and commercial buildings. This equipment supplies heating, cooling, lighting, hot water, and other services required to operate a building efficiently and to offer its occupants a comfortable environment. The office is responsible for managing the Appliance Standards Program and for providing technical support for the Federal Trade Commission's Appliance Labeling Program.

J-06 ENERGY EFFICIENT BUILDINGS PROGRAM

Lawrence Berkeley Laboratory
University of California
Building 90, Room 3028
Berkeley, California 94720
San Francisco Operations Office, DOE

Arthur Rosenfeld, Acting Program Leader
(415) 486-4834
FTS 451-4834

Greg Traynor, Assistant Program Leader
(415) 486-5729
FTS 451-5729

Performs research in support of the energy conservation programs of DOE's Conservation and Renewable Energy. Projects encompass computer modeling, field measurement, lab testing, and instrumentation development in the areas of lighting, indoor air quality, daylighting, and building performance for both residential and commercial buildings. The laboratory maintains data bases for infiltration and building performance, indoor air quality, as well as two computer programs, DOE-2 and CIRA.

Program includes six areas:

Building Energy Simulation
(DOE-2 and ENERGY-I Computer Programs)
Jeff Hirsch
(415) 486-5711
FTS 451-5711

Energy Performance of Buildings
Max Sherman
(415) 486-4022
FTS 451-4022

BEST COPY AVAILABLE

Ventilation and Indoor Air Quality
David Grimsrud
Anthony Nero
(415) 486-6591
FTS 451-6591

Windows and Use of Daylight
Steve Selkowitz
(415) 486-5064
FTS 451-5064

Lighting Systems
Sam Berman
Rudy Verderber
(415) 486-5682
FTS 451-5682

Building Energy Data
Jeff Harris
Alan Meier
(415) 486-4362
FTS 451-4362

Technical and semitechnical reports and descriptive literature on instrumentation and experimental results are prepared and distributed by each program area. The following data bases are maintained and published regularly: new residences, residential retrofit, commercial buildings, appliances, validation of computer programs, and supply curves for potentially conserved fuels and electricity.

Industrial Programs

J-07 WASTE ENERGY REDUCTION DIVISION

Industrial Programs
Deputy Assistant Secretary for Conservation
Conservation and Renewable Energy, DOE

John R. Rossmeissl, Director
FORSTL, CE-121, Room 5F035
(202) 252-2098
FTS 252-2098

Conducts technological development in cogeneration, waste heat recovery and utilization, and combustion efficiency improvement, especially in industries that use energy-intensive processes.

J-08 IMPROVED ENERGY PRODUCTIVITY DIVISION

Industrial Programs
Deputy Assistant Secretary for Conservation
Conservation and Renewable Energy, DOE

Thomas J. Gross, Director
FORSTL, CE-122, Room 5F035
(202) 252-2890
FTS 252-2890

Conducts research and development in the areas of new technologies with multi-industry applications. These activities include the technologies leading to improved overall process energy efficiency and greater fuel flexibility, including a full range of new process work oriented to both high- and low-temperature process needs.

State and Local Assistance Programs

J-09 ENERGY MANAGEMENT AND EXTENSION DIVISION

Energy Management Programs
State and Local Assistance Programs
Conservation and Renewable Energy, DOE

Richard Brancato, Acting Director
FORSTL, CE-24, Room 6A081
(202) 252-2344
FTS 252-2344

Develops and implements DOE's technical assistance and outreach efforts to encourage State and local energy conservation and the use of renewable resources in a broad range of sectors. These outreach efforts include the Energy Extension Service and State Energy Conservation Programs.

J-10 GRANTS MANAGEMENT AND TECHNICAL ASSISTANCE

State and Local Assistance Programs
Conservation and Renewable Energy, DOE

Robert K. Volk, Jr., Director
FORSTL, CE-24, Room 6A055
(202) 252-2302
FTS 252-2302

Coordinates the cross-program needs of the energy conservation and assistance programs within DOE and at the State and local levels. The office encourages information sharing and technical assistance for State and local needs. It has budgetary, monitorial, and evaluation responsibilities for State and local assistance programs and provides a contact point for State energy officials requesting assistance.

J-11 RESIDENTIAL AND COMMERCIAL CONSERVATION DIVISION

Energy Management Programs
State and Local Assistance Programs
Conservation and Renewable Energy, DOE

Vacant
FORSTL, CE-242, Room 6A081
(202) 252-1650

Develops and provides practical, technical, and program support information to industries, organizations, and governmental bodies responsible for influencing energy management in buildings. The Division is also responsible for: (1) the Residential Conservation Service (RCS) program that requires large gas and electric utilities to perform energy audits of their customer's homes upon request and to provide certain other related services to their residential customers and (2) the Commercial and Apartment Conservation Service (CACS) program that requires large gas and electric utilities to offer energy audits of eligible small commercial buildings and of large centrally heated or cooled apartment buildings.

J-12 INSTITUTIONAL CONSERVATION PROGRAMS DIVISION

BEST COPY AVAILABLE

Building Efficiency Programs
State and Local Assistance Programs
Conservation and Renewable Energy, DOE

Tyler E. Williams, Director
FORSTL, CE-251, Room 5G023
(202) 252-2204
FTS 252-2204

Develops and administers DOE's efforts to increase the level of energy conservation in schools, hospitals, and buildings owned and operated by units of local government and in buildings that house public-care institutions.

J-13 WEATHERIZATION ASSISTANCE PROGRAMS DIVISION
Building Efficiency Programs
State and Local Assistance Programs
Conservation and Renewable Energy, DOE

Joseph P. Flynn, Jr., Director
FORSTL, CE-25, Room 5G023
(202) 252-2204
FTS 252-2204

Sandra S. Monje (for program information)
(202) 252-2207
FTS 252-2207

Develops and implements a national program to weatherize the homes of low-income persons, particularly the elderly and handicapped. This is done by retrofitting eligible homes with energy-conserving devices and by providing training and technical assistance to States, localities, Indian tribes, and program beneficiaries.

J-14 LOW INCOME HOME ENERGY ASSISTANCE PROGRAM
Energy Assistance
Social Security Administration
Department of Health and Human Services
2100 2nd Street, S.W., Room B448
Washington, DC 20201

Norm Thompson, Director
(202) 245-2030
FTS 245-2030

Administers block grants to the States for principal fuel assistance payments and for low-income weatherization and crisis intervention.

J-15 ENERGY DIVISION
Environment and Energy
Community Planning and Development
Housing and Urban Development
451 7th Street, S.W.
Washington, DC 20410

Robert Groberg, Director
HUD, Room 7156
(202) 755-5504
FTS 755-5504

Serves as the principal coordinator for energy activities and provides advice and staff support on energy matters affecting State and local governments and the general public; provides training and technical assistance to staff in achieving the energy objectives of programs administered by the Department, including the Community Development Block Grant Program, the Urban Development Action Grant Program, the Rental Rehabilitation Program, and Homesteading. The Division administers and participates in demonstrations, feasibility studies, and cooperative efforts with other agencies in such diverse areas as energy efficiency and economic/community development, district heating, municipal waste-to-energy systems, weatherization, energy and the elderly, and building energy efficiency.

J-16 SOLAR ENERGY AND ENERGY CONSERVATION BANK
Housing and Urban Development
451 7th Street, S.W.
Washington, DC 20410

Walter R. Preysnar, Program Director
HUD, Room 7110
(202) 755-7167
FTS 755-7167

Administers financial assistance programs to reduce the cost of energy improvements in buildings to low- and moderate-income persons by subsidizing the cost of borrowing or by providing grants to undertake solar energy and especially energy conservation measures within the parameters of the respective State energy programs.

Transportation

J-17 HEAT ENGINE PROPULSION DIVISION
Transportation Systems
Deputy Assistant Secretary for Conservation
Conservation and Renewable Energy, DOE

Albert A. Chesnes, Director
FORSTL, CE-131, Room 5G046
(202) 252-8053
FTS 252-8053

Conducts research, development, and design for advanced propulsion systems for both the automotive and heavy-duty transportation sectors. The office analyzes and assesses new energy concepts and participates in research and development of high-temperature materials and components. The alternative fuels utilization program is directed towards lowering risks associated with the development of alternate fuel technologies in the transportation sector and towards encouraging the use of such fuels.

Richard T. Alpaugh, Supervisor
FORSTL, CE-131, Room 5G030
(202) 252-8012
FTS 252-8012

BEST COPY AVAILABLE

Manages long-range research and development projects associated with improving automobile propulsion systems, with emphasis on high-risk technology and material for gas turbine and Stirling engines. Activities include developing and distributing information and reports (including the mileage guide that is mandated by the Congress). Activities also include assessing whether energy, including petroleum, is saved by actions taken by the automobile industry and by Federal R&D projects.

E. Eugene Ecklund, Supervisor
FORSTL, CE-131, Room 5G030
(202) 252-8055
FTS 252-8055

Manages long-term research and development programs for new energy- and petroleum-saving technology in the heavy-duty transport sector. The office also manages research and development projects associated with the use of alternative fuels in advanced and conventional engines and manages a research and development program for advanced high-temperature materials.

J-18 ELECTRIC AND HYBRID PROPULSION DIVISION
Transportation Systems
Deputy Assistant Secretary for Conservation
Conservation and Renewable Energy, DOE

Paul J. Brown, Director
FORSTL, CE-132, Room 5G030
(202) 252-8027
FTS 252-8027

Kenneth F. Barber (for program information)
FORSTL, CE-132, Room 5G045
(202) 252-8027
FTS 252-8027

Promotes use of electric and hybrid vehicles and encourages research and development to improve existing propulsion systems and batteries.

J-19 OFFICE OF ENFORCEMENT AND EMERGENCY SERVICES
National Highway Traffic Safety Administration
Department of Transportation
400 7th Street, S.W., Room 6124
Washington, DC 20590

Harold A. Butz, Jr., Director
NTS-40
(202) 472-4913
FTS 472-4913

Oversees the enforcement of the 55-mile-per-hour (mph) program. The office is a clearinghouse and information center on enforcement programs in the States. The office receives and processes annual certifications of 55-mph enforcement that are required by law. It oversees expenditures of Federal highway safety funds allocated annually for 55-mph enforcement and develops research programs that assist State enforcement agencies in improving their programs.

J-20 REVIEW AND ANALYSIS DIVISION
Economics
Department of Transportation
400 7th Street, S.W., Room 10309
Washington, DC 20590

Nancy Ebersol, Program Analyst
(202) 426-9622
FTS 426-9622

Provides information from the interim (1974) and final (1975) reports to the Congress on the operation and effects of national daylight saving time experiments in energy use and on other factors.

K. Environment

Environmental Impact Statements

K-01 ENVIRONMENTAL COMPLIANCE
Policy, Safety, and Environment, DOE

Robert J. Stern, Director
FORSTL, PE-25, Room 3G092
(202) 252-4600
FTS 252-4600

Provides policy guidance and technical assistance to all DOE programs on matters pertaining to the National Environmental Policy Act (NEPA) and other environmental requirements; reviews and recommends approval of NEPA documents prepared for DOE's activities; and determines whether DOE programs, projects, or regulations require Environmental Impact Statements (EIS's) or other environmental impact review. The office serves as a focal point in DOE for reviewing EIS's from other agencies.

K-02 OFFICE OF FEDERAL ACTIVITIES
Environmental Protection Agency
401 M Street, S.W., Room 2119M, A-104
Washington, DC 20460

Jan Lott Shaw, Management Analyst
(202) 382-5074
FTS 382-5074

Maintains the Council on Environmental Quality filing system of Environmental Impact Statements (EIS's) that have been submitted by sponsoring agencies. It also controls the records of all EIS reviews by the Environmental Protection Agency.

K-03 PUBLIC INFORMATION REFERENCE UNIT
Environmental Protection Agency
401 M Street, S.W., Room 2904, PM-211D
Washington, DC 20460

(202) 382-5926
FTS 382-5926

Keeps specific Environmental Protection Agency records supporting proposed Agency actions. The records may be inspected by the public in accordance with Agency regulations implementing the Freedom of Information Act and the Privacy Act. Photocopying facilities are available. The first 50

BEST COPY AVAILABLE

copies are free and additional copies are $0.20 each (check or money order).

Health and Environmental Research

K-04 OFFICE OF HEALTH AND ENVIRONMENTAL RESEARCH
Energy Research, DOE

Dr. Jacob W. Thiessen, Acting Associate Director
GTN, ER-70, Room F208
(301) 353-3251
FTS 233-3251

Supports research on health and environmental effects of energy technology development and use, as well as medical applications of nuclear technology.

Technology Impact

K-05 OFFICE OF ENVIRONMENTAL ANALYSIS
Policy, Safety, and Environment, DOE

Edward (Ted) Williams, Director
FORSTL, PE-26, Room 4G036
(202) 252-2061
FTS 252-2061

Edward (Ted) Williams, Acting Director
Environmental Issues
(202) 252-2061
FTS 252-2061

David Moses, Acting Director
Environmental Assessments Division
(202) 252-2061
FTS 252-2061

Analyzes proposed environmental policies, laws, and regulations to determine their effects on energy development and use. The office assesses the potential impacts on the environment of energy technologies being developed by DOE; it also assesses the potential impact of national energy strategies at both the national and regional levels.

L. Coal

Utilization and Extraction

L-01 COAL UTILIZATION SYSTEMS
Coal Utilization, Advanced Conversion, and Gasification
Fossil Energy, DOE

Dr. Howard Feibus, Director
GTN, FE-23, Room C160
(301) 353-4348
FTS 233-4348

Responsible for Federal research in atmospheric and pressurized fluidized bed combustion, coal-based mixture, and advanced/enhanced conventional combustion technology, as well as for programs to develop advanced environmental control technology and coal preparation systems. The office also serves as a DOE focal point for anthracite and administers the Coal Loan Guarantee Program.

L-02 ADVANCED ENERGY CONVERSION SYSTEMS
Coal Utilization, Advanced Conversion, and Gasification
Fossil Energy, DOE

Jack Siegel, Acting Director
GTN, FE-22, Room C161
(301) 353-3965
FTS 233-3965

Responsible for a broad research and development program to provide the technology base for advanced power systems utilizing diversified fuel types. The program includes the development of heat engine technology, with emphasis on gas turbine development for use with coal and coal-derived fuels; the identification of improved integrated power plant systems and components; and the management of the Federal fuel cell technology and the magnetohydrodynamics programs.

Coal Processing

L-03 SURFACE COAL GASIFICATION
Coal Utilization, Advanced Conversion, and Gasification
Fossil Energy, DOE

Dr. C. Lowell Miller, Director
GTN, FE-24, Room C176
(301) 353-3498
FTS 233-3498

Responsible for the government research and development program in coal gasification, with particular emphasis on development of a sound technology base. This involves the advancement of the science and engineering data base for gasification systems and the identification of long-range advanced research needs in coal chemistry and processing. Also, the program is responsible for an exploratory effort for innovative process concepts having significant potential for cost reduction, system reliability, or other improvements.

L-04 COAL LIQUEFACTION TECHNOLOGY
Oil, Gas, Shale, and Coal Liquids
Fossil Energy, DOE

Dr. James D. Batchelor, Director
GTN, FE-34, Room E151A
(301) 353-3482
FTS 233-3482

Responsible for the government research and development program in coal liquefaction, with particular emphasis on development of a sound technology base, including the advancement of the science and engineering data base for liquefaction systems and the identification of long-range research needs in coal processing. The program also includes an exploratory program in innovative

BEST COPY AVAILABLE

process concepts having potential for significant cost reduction or other improvements.

L-05 SPECIAL PROJECTS
Oil, Gas, Shale, and Coal Liquids
Fossil Energy, DOE

Marvin S. Brooks, Acting Director
GTN, FE-35, Room D103
(301) 353-3138
FTS 233-3138

Provides overall executive management control of the Great Plains Coal Gasification Plant project; serves as the primary focus with the U.S. Synthetic Fuels Corporation and other public and private organizations regarding financial assistance programs for synthetic fuels; responsible for integrating the science and engineering data base for synthetic fuels; and responsible for the phaseout and termination of major Fossil Energy pilot and demonstration plant programs.

L-06 PITTSBURGH ENERGY TECHNOLOGY CENTER (PETC)
Fossil Energy, DOE
P.O. Box 10940
Pittsburgh, Pennsylvania 15236

Dr. William C. Peters, Coordinator
Office of Technical Information Management System

Thomas C. Ruppel (for program information)
(412) 675-6244
FTS 723-6244

Conducts fundamental studies of the conversion of coal into liquid fuels (including coal-water and coal-methanol mixtures) and research and development of advanced high-risk coal liquefaction concepts. As the lead DOE laboratory in this area, PETC is developing a central DOE data base on coal technologies that is to be accessible to the public.

L-07 MORGANTOWN ENERGY TECHNOLOGY CENTER (METC)
Fossil Energy, DOE
P.O. Box 880
Morgantown, West Virginia 26505

Ralph L. Scott, Branch Chief
Environmental and Data Base Systems Branch
(304) 291-4094
FTS 923-4094

Conducts fundamental studies as well as research and development of high-risk coal utilization concepts. Areas of research include coal gasification, fluidized bed combustion, heat engines, fuel cells, waste management, coal bed methane, and underground coal conversion as well as unconventional extraction technologies, e.g., oil shale, tar sands, eastern/western gas shale, gas hydrates, deep source gas, and acid deposition. METC is the lead DOE laboratory in these areas and is developing a central data base to make each technology more accessible.

Mining

L-08 DIVISION OF ABANDONED MINE LAND RECLAMATION
Surface Mining Reclamation and Enforcement
Department of the Interior
1951 Constitution Avenue, N.W.
Washington, DC 20240

Dr. Phyllis Thompson, Chief
(202) 343-7937
FTS 343-7937

Administers reclamation of abandoned mine lands. Reclamation is accomplished through grants to States with money from a trust fund supported by fees paid for every ton of coal mined. The Division manages fee collection and compliance and evaluates State reclamation programs.

L-09 DIVISION OF RECLAMATION TECHNOLOGY
Technical Services and Research
Surface Mining Reclamation and Enforcement
Department of the Interior
Interior South Building
1951 Constitution Avenue, N.W.
Washington, DC 20240

Dr. Allen Perry, Chief
(202) 343-5854
FTS 343-5854

Provides technical support for Federal operations and technical assistance to State programs; provides technical expertise for litigation; conducts applied research studies; evaluates reclamation techniques for the States. The office is responsible for developing, implementing, reviewing, and offering technical assistance to State regulatory and reclamation programs.

L-10 FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION
1730 K Street, N.W., Suite 600
Washington, DC 20006

Executive Director
(202) 653-5644
FTS 653-5644

Responsible for conducting formal hearings and rendering decisions in adjudication initiated by the Secretary of Labor, mine operators, miners, and miners' representatives under the Federal Mine Safety and Health Act. Established in 1977, the Commission employs 12 administrative law judges. The five Commissioners are presidentially appointed and require Senate confirmation. All final orders of the Commission may be appealed to the U.S. Circuit Courts of Appeal.

L-11 DIVISION OF PERMIT AND ENVIRONMENTAL ANALYSIS
Surface Mining Reclamation and Enforcement
Department of the Interior
1951 Constitution Avenue, N.W.

BEST COPY AVAILABLE

Washington, DC 20240

Mark Boster, Chief
(202) 343-1480
FTS 343-1480

Responsible for Office of Surface Mining Reclamation and Enforcement (OSM) compliance with the National Environmental Policy Act (NEPA) and other environmental analyses. The Division is also responsible for all economic analyses performed by OSM. In addition, the Division is responsible for OSM policy on Federal and Indian lands, including permits, mining plan approvals, and petitions to designate lands unsuitable for mining. The Division is also responsible for policy on permitting oversight and technical evaluations of State programs.

M. Petroleum

Oil Spills

M-01 NATIONAL RESPONSE CENTER
U.S. Coast Guard Headquarters
2100 2nd Street, S.W., Room 2611
Washington, DC 20590

Lieutenant Harlan Henderson, U.S. Coast Guard
COMDT (G-TGC-2)
(800) 424-8802
(202) 426-2675
FTS 426-2675

Functions in accordance with the National Contingency Plan to provide for coordinated pollution response by Federal and State government agencies. The National Response Center receives initial reports of oil and chemical spills and rapidly passes the information to the pre-designated Federal On-Scene Coordinator for action. Technical information such as hazard assessments and movement forecasting is available to Federal On-Scene Coordinators through the National Response Center. The National Response Center also provides support to the National Response Team (representatives of 12 Federal agencies that plan for and provide guidance during major oil and hazardous substance spills). The 12 agencies are the Environmental Protection Agency, U.S. Coast Guard (Department of Transportation), Department of Agriculture, Department of Commerce, Department of Defense, Department of Energy, Department of Health and Human Services, Department of the Interior, Department of Justice, Department of Labor, Department of State, and the Federal Emergency Management Agency. The National Response Team meets monthly to discuss and review matters pertinent to the U.S. response posture.

Strategic Petroleum Reserve

M-02 NEW ORLEANS PROJECT MANAGEMENT OFFICE
Strategic Petroleum Reserve
Oak Ridge Operations Office, DOE
900 Commerce Road East
New Orleans, Louisiana 70123

C. Raymond Somerlock, Project Manager
(504) 734-4201
FTS 686-4201

Answers specialized inquiries regarding such matters as project implementation, site locations, construction, and technical problems.

M-03 SYSTEMS DIVISION
Strategic Petroleum Reserve
Fossil Energy, DOE

John W. Bartholomew, Director
FORSTL, FE-42, Room 3E052
(202) 252-4415
FTS 252-4415

Analyzes program development alternatives and develops technical and operational policies and requirements that will assure achievement of the goals and objectives of the Strategic Petroleum Reserve (SPR) program. Responsibilities include planning and coordinating SPR crude oil acquisitions, new storage development, and drawdown and distribution of the SPR.

Naval Petroleum and Oil Shale Reserves

M-04 OFFICE OF NAVAL PETROLEUM AND OIL SHALE RESERVES
Fossil Energy, DOE

Captain Myron E. Smith, Jr., CEC, USN, Director
FORSTL, FE-50, Room 3E094
(202) 252-4685
FTS 252-4685

Responsible for planning and preparing to meet essential defense, industrial, and military emergency requirements for the national safety, welfare, and economy, particularly those resulting from foreign military or economic actions. In fulfilling this responsibility, the organization controls and manages three oil fields in California and Wyoming, which are now producing at their maximum efficient rates, and three major oil shale properties in Colorado and Utah.

Technology/Enhanced Oil Recovery

M-05 OIL, GAS AND SHALE TECHNOLOGY
Oil, Gas, Shale, and Coal Liquids
Fossil Energy, DOE

Douglas Uthus, Director
GTN, FE-33, Room D119
(301) 353-2877
FTS 233-2877

Responsible for Federal programs in enhanced recovery of heavy/light oil, extraction of oil from tar sands, advanced extraction, drilling, offshore technology, and refining. The office is also responsible for the advancement of the science and engineering data base for petroleum technologies.

BEST COPY AVAILABLE

M-06 NATIONAL INSTITUTE FOR PETROLEUM AND ENERGY RESEARCH (NIPER)
P.O. Box 2128
Bartlesville, Oklahoma 74005

Bartlesville Project Office
Department of Energy

Bill Linville, Chief
Public Information
(918) 337-4233
FTS 745-4233

Conducts research, development, and demonstration efforts covering all phases of liquid fossil fuel technology. This program includes research on petroleum extraction using enhanced oil recovery methods and improved drilling technology; the extraction of natural gas from Western tight sands; processing and thermodynamic properties of conventional oils, as well as liquid products made from coal, oil shale, and tar sands; recycling of waste lubricating oil; and improving automotive engine emissions. Data banks on crude oil analyses and alternative fuels are maintained; the public has free access to both. A data bank on enhanced oil recovery is also being compiled and will be made available to the public when completed. Effective October 1, 1983, the Bartlesville Energy Technology Center (BETC) was transferred for operation by the Illinois Institute of Technology Research Institute and has been renamed the National Institute for Petroleum and Energy Research (NIPER). In addition, NIPER will solicit research not only from government agencies, but from the private sector as well.

Petrochemicals

M-07 CHEMICALS AND ALLIED PRODUCTS
International Trade Administration
Department of Commerce
14th and Constitution Avenue, N.W., Room 4031
Washington, DC 20230

Vince Kamenicky, Office Director
(202) 377-0128
FTS 377-0128

David Blank, Industry Specialist
(202) 377-0128
FTS 377-0128

Serves as the principal resource for chemical and petrochemical analysis and information in the Department of Commerce. The office monitors the industry structure, production, capacity, costs, prices, and other economic factors, both domestic and international. Analytical results are used both within the Department of Commerce for policy planning and by industry and other government agencies. The office also is responsible for the competitive assessment programs, policy and legislation, and export promotions.

N. Natural Gas

Pipelines

N-01 ALASKA NATURAL GAS TRANSPORTATION SYSTEM
Office of the Federal Inspector
1200 Pennsylvania Avenue, N.W., Box 290
Washington, DC 20044

Nancy Ellett
(202) 275-1100
FTS 275-1100

Monitors construction of the U.S. portion of the Alaska Natural Gas Transportation System; coordinates the work of eight Federal agencies; enforces all certificates and conditions issued for construction. The Office of the Federal Inspector is a separate agency within the Executive Branch.

Unconventional Gas Recovery

N-02 OIL, GAS AND SHALE TECHNOLOGY
Oil, Gas, Shale, and Coal Liquids
Fossil Energy, DOE

Douglas Uthus, Director
GTN, FE-33, Room D122
(301) 353-2877
FTS 233-2877

Jim White, Program Manager
(for program information)
GTN, FE-33, Room D122
(301) 353-2877
FTS 233-2877

Responsible for Federal technology programs for recovery of natural gas from hydrocarbon reserves, Eastern gas shales, and Western tight gas sands; for recovery of methane from coal; and for recovery of other unconventional gas resources. The office is also responsible for the advancement of the science and engineering data base for gas extraction technologies.

N-03 EXTRACTION PROJECTS MANAGEMENT DIVISION
Morgantown Energy Technology Center
P.O. Box 880
Collins Ferry Road
Morgantown, West Virginia 26505

William E. Little, Director
(304) 291-4216
FTS 923-4216

Manages implementation of fossil energy programs in unconventional gas recovery, arctic and offshore research, and enhanced oil recovery using carbon dioxide flooding. The office also manages oil shale, underground coal gasification, and tar sands recovery research programs through the Division's Laramie project office.

BEST COPY AVAILABLE

N-04 COAL PROJECTS MANAGEMENT DIVISION
Morgantown Energy Technology Center
P.O. Box 880
Collins Ferry Road
Morgantown, West Virginia 26505

Dr. Paul R. Wieber, Director
(304) 291-4109
FTS 923-4109

Manages implementation of fossil energy programs for the conversion and utilization of coal, including surface coal gasification, fluidized bed combustion, fuel cells, gas stream clean-up, heat engines, and supporting research in these areas.

O. Electric Power

Energy Storage and Distribution

O-01 ENERGY STORAGE AND DISTRIBUTION
Deputy Assistant Secretary for Renewable Energy Conservation and Renewable Energy, DOE

Kenneth W. Klein, Director
FORSTL, CE-30.2, Room 5E036
(202) 252-4564
FTS 252-4564

Supports a balanced program of technology planning, research and development, and test and evaluation in the areas of electric energy distribution and energy storage systems. Energy storage systems research areas include advanced, state-of-the-art battery systems and chemical, thermal, and magnetic energy storage systems.

Power Marketing

O-02 POWER MARKETING COORDINATION
Office of Management and Review
Conservation and Renewable Energy, DOE

James E. Harper, Engineer
FORSTL, CE-90, Room 6B104
(202) 252-1040
FTS 252-1040

Markets hydroelectric power generated at Federal multipurpose dams operated by the Army Corps of Engineers and the Bureau of Reclamation.

Alaska Power Administration
P. O. Box 50
Juneau, Alaska 99802
Robert J. Cross, Administrator
(907) 586-7405

Bonneville Power Administration
P. O. Box 3621
Portland, Oregon 97208
Peter T. Johnson, Administrator
(503) 230-3000
FTS 429-5101
Larry C. Larson, Assistant Administrator for Washington, DC Office
FORSTL, Room 8G033
(202) 252-5640
FTS 252-5640

Southeastern Power Administration
Samuel Elbert Building
Elberton, Georgia 30635
Harry C. Geisinger, Administrator
(404) 283-3261

Southwestern Power Administration
P. O. Drawer 1619
Tulsa, Oklahoma 74101
Ronald H. Wilkerson, Administrator
(918) 581-7474
FTS 745-7474

Western Area Power Administration
P. O. Box 3402
Golden, Colorado 80401
William Clagett, Administrator
(303) 231-1511
FTS 327-1511
Ronald K. Greenhalgh, Assistant Administrator for Washington, DC Liaison
FORSTL, Room 8G061
(202) 252-5581
FTS 252-5581

Rural Electrification

O-03 RURAL ELECTRIFICATION ADMINISTRATION
Department of Agriculture
14th and Independence Avenue, S.W.
Washington, DC 20250

Jeanne M. Kling, Acting Director
Public Information Office
(202) 382-1255
FTS 382-1255

Makes loans to nonprofit and cooperative associations, public bodies, and electric utilities for the financing of electric and telephone facilities in rural areas. These loans finance the construction and operation of electric generating plants and distribution systems to provide initial and continued adequate electric service to rural areas.

P. Nuclear Energy

Fusion Technology

P-01 OFFICE OF FUSION ENERGY
Energy Research, DOE

Dr. John F. Clarke, Associate Director
GTN, ER-50, Room J204
(301) 353-3347
FTS 233-3347

BEST COPY AVAILABLE

Develops the science and technology base for an attractive fusion energy source. The office is concerned with the development of sound physical and engineering technological foundations needed for the design, construction, and operation of complex fusion experiments and facilities. In the near future, this work does contribute to related fields of science and technology.

Reactor Research

P-02 OFFICE OF CONVERTER REACTOR DEPLOYMENT
Nuclear Energy, DOE

Thomas A. Werner, Acting Director
GTN, NE-10, Room A439
(301) 353-5447
FTS 233-5447

Manages programs in the following areas: high-temperature reactor technology; light water reactor (LWR) safety research and development; LWR power plant system technology evaluation; LWR component evaluation, development, and testing; and LWR fuel fabrication technology, component evaluation, development, and testing.

P-03 BREEDER TECHNOLOGY PROJECTS
Nuclear Energy, DOE

Delbert Bunch, Acting Director
GTN, NE-53, Room H407
(301) 353-2915
FTS 233-2915

Conducts the Liquid Metal Fast Breeder Reactor (LMFBR) Program. This includes coordination and cooperation with other Federal agencies and a role in developing and executing international programs for power reactor development. The U.S. program is performed, under contracts administered by DOE field offices, by the national laboratories and by U.S. industry. This office is the principal point of contact in government for the National LMFBR Program.

P-04 PLANS AND EVALUATION
Support Programs
Nuclear Energy, DOE

William M. Hartman, Acting Director
FORSTL, NE-72, Room 5A157
(202) 252-8728
FTS 252-8728

Translates policy and designs program strategy in developing a justification and defense of Nuclear Energy program activities before internal agency, Office of Management and Budget (OMB), and Congressional reviews. The office directs preparation of policy and planning inputs for submission to the Assistant Secretary for Nuclear Energy, OMB, and the Congress.

Safety

P-05 SAFETY, QUALITY ASSURANCE, AND SAFEGUARDS DIVISION
Support Programs
Nuclear Energy, DOE

Dr. Neal Goldenberg, Director
GTN, NE-74, Room B410
(301) 353-4567
FTS 233-4567

Marvin Norin, Deputy Director
(301) 353-4518
FTS 233-4518

Performs independent safety assessments across all civilian nuclear energy activities for the Assistant Secretary for Nuclear Energy. The office develops policy, provides guidelines/staff assistance, and performs safety/quality assurance appraisals of nuclear energy facilities and programs. It also directs safeguard activities for nuclear projects and programs.

Uranium

P-06 MARKETING AND BUSINESS OPERATIONS
Uranium Enrichment
Nuclear Energy, DOE

Sherry Peske, Director
GTN, NE-32, Room A283
(301) 353-5836
FTS 233-5836

Directs and administers marketing, contracting, budgeting, planning, and financial control activities in support of uranium enrichment programs.

P-07 ADVANCED TECHNOLOGY PROJECTS
Uranium Enrichment
Nuclear Energy, DOE

Norton Haberman, Director
GTN, NE-35, Room A171
(301) 353-4781
FTS 233-4781

Responsible for research and development of gas centrifuge technology and atomic vapor laser isotope separation techniques.

P-08 OFFICE OF ENRICHMENT EXPANSION PROJECTS
Uranium Enrichment
Nuclear Energy, DOE

Donald Erb, Director
GTN, NE-34, Room A170
(301) 353-4610
FTS 233-4610

Responsible for the design, procurement, and construction of the Gas Centrifuge Enrichment Plant at Portsmouth, Ohio.

P-09 OPERATIONS AND FACILITY RELIABILITY
Uranium Enrichment

BEST COPY AVAILABLE

Nuclear Energy, DOE

J. William Bennett, Director
GTN, NE-33, Room A269
(301) 353-5832
FTS 233-5832

Develops program plans and directs program activities associated with the operation, construction, and maintenance of the three existing gaseous diffusion plants. The office is also responsible for the start-up and operation of the Gas Centrifuge Enrichment Plant at Portsmouth, Ohio.

Waste Management

P-10 URANIUM MILL TAILINGS REMEDIAL ACTIONS PROJECT OFFICE
Albuquerque Operations Office
Department of Energy
P.O. Box 5400
Albuquerque, New Mexico 87115

John G. Themelis, Project Manager
(505) 844-3941
FTS 844-3941

Takes remedial actions (clean-up) at 24 inactive uranium mill tailings sites and associated vicinity properties in 11 States and the Navajo Indian Reservation. Public Law 95-604 requires DOE to meet standards issued by the Environmental Protection Agency (EPA) in January 1983. After clean-up is accomplished, the sites will be owned by the Federal government and licensed by the Nuclear Regulatory Commission. DOE has 7 years from the promulgation of the EPA standards to complete remedial actions. These 24 sites are privately owned, but the uranium oxide milled at the sites was sold primarily to the former Atomic Energy Commission.

P-11 WASTE MANAGEMENT
Grand Junction Projects Office (GJPO)
Idaho Operations Office
Department of Energy
P.O. Box 2567
Grand Junction, Colorado 81502

Merle E. Crew, Manager
(303) 242-8621
FTS 322-9201

Involved in uranium mine and mill tailings remedial action programs, including activities relating to environmental effects of uranium mining and milling operations and managing uranium leases on lands under DOE control. GJPO provides geoscientific support in the characterizations of sites being considered as repositories under DOE's Civilian Radioactive Waste Management Program. GJPO participates in international technical exchanges under several programs administered by the Organization for Economic Cooperation and Development's Nuclear Energy Agency and the International Atomic Energy Agency. GJPO industry monitoring and uranium resource assessment and supply analysis were transferred in September 1983 to the Energy Information Administration.

P-12 OFFICE OF TERMINAL WASTE DISPOSAL AND REMEDIAL ACTION
Nuclear Energy, DOE

William R. Voigt, Acting Director
GTN, NE-20, Room E435
(301) 353-5006
FTS 233-5006

Provides direction for the planning, development, and execution of DOE programs for civilian nuclear waste treatment; civilian low-level waste management; research/corrective actions on contaminated surplus facilities/inactive mill tailings sites; research and development of nuclear fuel cycle technology; and improvements in safety/reliability of nuclear power plants through an evaluation of the Three Mile Island II accident.

P-13 TRANSPORTATION SYSTEM DEVELOPMENT DEPARTMENT 6320
Sandia National Laboratories
P.O. Box 5800
Albuquerque, New Mexico 87185

James S. Ney, Manager
(505) 846-0896
FTS 846-0896

Assures national capability to analyze and resolve problems associated with nuclear waste transportation and availability of transportation systems for national nuclear waste storage and disposal programs. The Transportation Technology Center (TTC) provides analyses of and recommendations for transportation systems on safety, reliability, public acceptability, and cost-effectiveness. TTC has information on State legislation regarding nuclear waste transportation (abstracts), hazardous material incident reports, cask inventories, transportation accident data, emergency response plans, and transportation environments in engineering terms. TTC is the national focal point for nuclear waste transportation, integrating DOE programs with those of other Federal agencies and private industry.

P-14 OFFICE OF CIVILIAN RADIOACTIVE WASTE MANAGEMENT
Department of Energy

Ben C. Rusche, Director
FORSTL, RW-1
(202) 252-6850
FTS 252-6850

Responsible for the permanent disposal of high-level radioactive waste and spent nuclear fuel in geologic repositories and for the development of an integrated waste management system. The office is also responsible for the establishment of a program of research, development, and demonstration for the disposal of high-level radioactive waste and spent nuclear fuel and for other purposes.

BEST COPY AVAILABLE

P-15 NUCLEAR FACILITY DECOMMISSIONING AND SITE REMEDIAL ACTION
Remedial Action Program Information Center
Oak Ridge National Laboratory (ORNL)
P.O. Box X, Building 2001
Oak Ridge, Tennessee 37831

Park T. Owen, Information Officer
(615) 576-0568
FTS 626-0568

Nancy P. Knox, Information Assistant
(for program information)
(615) 574-7764
FTS 624-7764

Operates the Nuclear Facility Decommissioning and Site Remedial Actions data base. This data base serves as a comprehensive source of technical information pertinent to the DOE Remedial Action Program, which comprises the Surplus Facilities Management Program, the Formerly Utilized Sites Remedial Action Program, the Uranium Mill Tailings Remedial Action Program, and the Grand Junction Remedial Action Program. The data base is managed by the staff of the Remedial Action Program Information Center (RAPIC). Computerized literature searches of RAPIC data bases are available upon request at no charge.

Three Mile Island Programs

P-16 THREE MILE ISLAND PROGRAMS
Terminal Waste Disposal and Remedial Action
Nuclear Energy, DOE

David J. McGoff, Director
GTN, NE-23, Room E420
(301) 353-3456
FTS 233-3456

Manages the DOE's Three Mile Island research and development programs.

Weapons

P-17 MILITARY APPLICATION
Defense Programs, DOE

Major General George K. Withers, Jr., U.S. Army
Director of Military Application
GTN, DP-22, Room A367
(301) 353-4221
FTS 233-4221

Develops and directs programs for research, development, testing, production, and reliability assessment of nuclear weapons; directs the DOE program for the prevention of accidental or unauthorized nuclear detonations; maintains liaison between DOE and the Department of Defense on nuclear weapons matters; and administers DOE activities under international agreements for cooperation involving nuclear weapons.

P-18 INERTIAL FUSION
Military Application
Defense Programs, DOE

Richard L. Schriever, Director
GTN, DP-23, Room C417
(301) 353-3663
FTS 233-3663

Develops and directs programs in laser and particle beam-driven fusion research and development. Major experimental facilities located at Lawrence Livermore (glass laser experiments), Los Alamos (gas laser experiments), and Sandia National Laboratories, Albuquerque (pulsed power) are operated both in fusion energy research and in support of military application of nuclear energy. Supporting research is administered by the Nevada Operations Office. Major support laboratories are KMS Fusion, Inc., the University of Rochester, and the Naval Research Laboratory. The University of Rochester laser system is also operated as a National Laser Users Facility for selected university and industrial researchers.

Q. Renewable Energy Sources

Technology

Q-01 RENEWABLE ENERGY TECHNOLOGIES
Deputy Assistant Secretary for Renewable Energy
Conservation and Renewable Energy, DOE

Ronald R. Loose, Acting Director
FORSTL, CE-32, Room 5F059
(202) 252-5347
FTS 252-5347

David B. Lombard (for program information)
(202) 252-8070
FTS 252-8070

Manages the research, development, and proof-of-concept activities of biomass energy technology, energy from municipal waste, and geothermal/small hydropower energy technology. Emphasis is placed on development of renewable technology with potential to increase significantly the Nation's supply of fuel, heat, and electricity.

Biomass and Municipal Waste

Q-02 BIOFUELS AND MUNICIPAL WASTE TECHNOLOGY DIVISION
Renewable Energy Technologies
Deputy Assistant Secretary for Renewable Energy
Conservation and Renewable Energy, DOE

Dr. Beverly J. Berger, Director
FORSTL, CE-321, Room 5F059
(202) 252-6750
FTS 252-6750

Develops and directs long-term research and development for increasing the supply of biomass feedstocks and for developing conversion technologies that will produce heat and gaseous/liquid fuels from a variety of biomass feedstocks. The

BEST COPY AVAILABLE

office investigates aquatic, herbaceous, and woody crops with potential to increase biomass yields, as well as thermochemical and biochemical conversion systems. Regional programs focus on technology transfer and matching of local feedstocks to conversion technologies. Special attention is paid to the economics of biomass and to the integration of biomass energy production and energy conversion.

Donald K. Walter
Specialist in Municipal Solid Waste
FORSTL, CE-323, Room 5F081
(202) 252-1697
FTS 252-1697

- Conducts research in utilizing municipal waste as an energy source. The office is responsible for DOE programs in waste-to-energy research and development.

Q-03 OFFICE OF ALCOHOL FUELS
Conservation and Renewable Energy, DOE

Daniel E. Beckman, Deputy Director
FORSTL, CE-80, Room 5F043
(202) 252-1277
FTS 252-1277

Implements the Energy Security Act's loan guarantee program (Title II Renewable Energy), which is designed in part to encourage the construction of alcohol fuel production facilities by the private sector. The office also monitors the remaining cooperative agreements and feasibility studies under this program.

See also J-13.

Geothermal and Small-Scale Hydropower

Q-04 GEOTHERMAL TECHNOLOGY DIVISION
Renewable Energy Technologies
Deputy Assistant Secretary for Renewable Energy
Conservation and Renewable Energy, DOE

John Mock, Director
FORSTL, CE-324, Room 5F067
(202) 252-5340
FTS 252-5340

Responsible for building a technology base to enable the private sector to economically develop geothermal resources. The program represents a balance of activities between geothermal resources, applied research, and sufficient exploratory development necessary to establish the technology base. Specific efforts are designed to develop engineering tools and acquire data necessary to reduce technical and economic risks to private sector developers. Especially important is the increased emphasis on technology transfer activities. The office also conducts engineering development and technology transfer activities for small hydropower resource development (up to 30 megawatts).

Solar, Wind, and Ocean Technology

Q-05 SOLAR ELECTRIC TECHNOLOGIES
Deputy Assistant Secretary for Renewable Energy
Conservation and Renewable Energy, DOE

Louis V. Divone, Director
FORSTL, CE-33, Room 5E080
(202) 252-5540
FTS 252-5540

Responsible for the research and development activities of wind energy systems, ocean energy systems, and photovoltaic energy systems. The office serves as the solar energy program's focal point and interfaces with the electric utility industry.

Q-06 SOLAR THERMAL TECHNOLOGY DIVISION
Solar Heat Technologies
Deputy Assistant Secretary for Renewable Energy
Conservation and Renewable Energy, DOE

Howard Coleman, Director
FORSTL, CE-314, Room 5H021
(202) 252-1535
FTS 252-1535

Manages the development, implementation, and evaluation of a national solar thermal program of technology planning, research and development, and test and evaluation.

Solar Energy/Passive and Hybrid

Q-07 SOLAR BUILDINGS TECHNOLOGY DIVISION
Solar Heat Technologies
Deputy Assistant Secretary for Renewable Energy
Conservation and Renewable Energy, DOE

David M. Pellish, Director
FORSTL, CE-312.2, Room 5H047
(202) 252-8110
FTS 252-8110

Manages research and development, from concept generation through prototype field tests, to be applied to solar buildings. Research and development activities are conducted in cost-shared projects with industry, DOE national laboratories, universities, and other Federal agencies to identify and mitigate technical barriers and to improve technical performance and cost-effectiveness. Activities include research in the materials sciences aimed at increasing the contribution of solar energy to buildings through enhanced collection, storage, transport, and control of thermal and visible radiation for heating, cooling, and daylighting.

Solar Energy/Photovoltaics

Q-08 PHOTOVOLTAICS TECHNOLOGY DIVISION
Solar Electric Technologies
Deputy Assistant Secretary for Renewable Energy

BEST COPY AVAILABLE

Conservation and Renewable Energy, DOE

Morton B. Prince, Senior Scientist
FORSTL, CE-333, Room 5E066
(202) 252-1725
FTS 252-1725

Andrew Krantz, Senior Engineer
FORSTL, CE-333, Room 5E066
(202) 252-1724
FTS 252-1724

Vincent Rice, Program Manager
(for program information)
(202) 252-1694
FTS 252-1694

Plans, implements, and evaluates research, development, and testing programs leading toward potentially low-cost, advanced photovoltaic materials and devices. The office also develops and manages research programs for the design, prototype fabrication, and testing of photovoltaic systems that will be low in cost, reliable, safe, and environmentally acceptable. The office also manages the photovoltaic concentrator collector development program.

Wind/Ocean

Q-09 WIND ENERGY RESEARCH CENTER
Solar Energy Research Institute (SERI)
1617 Cole Boulevard
Golden, Colorado 80401

Andy Trenka, Director
(303) 497-7111
FTS 320-7111

Operates SERI's Wind Energy Research Center for DOE. SERI conducts basic research in wind energy, such as aerodynamics, structural dynamics, electrical subsystems, and systems integration. Special projects include innovative designs, acoustical monitoring, and TV interference. Technical support is provided to industry and government agencies in the form of cost-reimbursed or cooperative tests and computer-based analysis of components and systems. SERI answers technical inquiries from manufacturers, developers, utilities, and researchers in order to improve the performance and reliability of wind systems and to enable their use as a cost-effective energy source.

Q-10 ATMOSPHERIC FLUID DYNAMICS
Pacific Northwest Laboratory
Richland Operations Office, DOE
P.O. Box 999
Richland, Washington 99352

Dr. Larry Wendell, Manager
(509) 375-3870

Dr. James Connell
(for microscale turbulence information)
(509) 375-3879

Alan H. Miller
(for wakes and flow characterization information)
(509) 375-3871

Conducts and manages research on atmospheric fluid dynamics as they apply to design, performance, and operation of wind turbines. Recent work includes wind turbine wake research, microscale turbulence analyses for dynamic stress load studies, flow characterization, and micrositing in complex terrain. The laboratory has performed wind energy resource assessments for the United States and has developed an international wind energy resource assessment. It also has done research on siting methods for large and small wind turbines.

Q-11 WIND/OCEAN TECHNOLOGIES DIVISION
Solar Electric Technologies
Deputy Assistant Secretary for Renewable Energy
Conservation and Renewable Energy, DOE

Leonard Rogers, Director
FORSTL, CE-331, Room 5H032
(202) 252-5540
FTS 252-5540

Manages the research and development activities in ocean energy technology. Emphasis is placed on the extraction and use of various forms of ocean energy, such as open-cycle and closed-cycle ocean thermal energy conversion and waves.

Daniel F. Ancona, Engineer
FORSTL, CE-331.2, Room 5H048
(202) 252-1776
FTS 252-1776

Coordinates government research and development programs on wind energy conversion systems.

Peter Goldman, Engineer
FORSTL, CE-331.2, Room 5H048
(202) 252-1995
FTS 252-1995

Manages the large horizontal axis wind research program at the NASA Lewis Reseach Center and the vertical (Darrieus) axis wind turbine research program at Sandia National Laboratories.

Oree Dyes, Engineer
FORSTL, CE-331.1, Room 5H048D
(202) 252-6268
FTS 252-6268

Responsible for the small and intermediate wind energy technology program.

Q-12 NATIONAL CLIMATIC DATA CENTER
National Environmental Satellite, Data, and Information Service
National Oceanic and Atmospheric Administration
Federal Building
Asheville, North Carolina 28801-2696

Dr. Kenneth Hadeen, Director
For climate data, call:
(704) 259-0682
FTS 672-0682

BEST COPY AVAILABLE

Provides, for the cost of reproduction (minimum charges begin at $3.00), available climatic summaries for sites in or near a locality. Climatic summaries for major U.S. weather stations, including wind data, are available in different forms, some more detailed than others. Detailed summaries include wind variation by hour of day and month of year. Wind tabulations that present the percentage frequency of wind direction and wind-speed groups have been constructed for many of the weather stations. In addition, the office has available raw, unedited solar insolation data for 26 cities in the United States. Special studies involving wind and/or solar insolation may be produced upon request.

Wood

Q-13 BIOFUELS AND MUNICIPAL WASTE TECHNOLOGY DIVISION
Renewable Energy Technologies
Deputy Assistant Secretary for Renewable Energy Conservation and Renewable Energy, DOE

Dr. Beverly J. Berger, Director
FORSTL, CE-321, Room 5F059
(202) 252-6750
FTS 252-6750

Develops and directs research aimed at increasing yields of hardwood species from short rotation intensive culture; conducts innovative thermochemical conversion research for producing gaseous/liquid fuels. Processes under investigation include gasification, combustion, pyrolysis, and liquefaction. The Regional Program engages in transferring technology to the private sector, assessing available resources, and matching local resources to conversion technologies.

Q-14 FOREST SERVICE
Department of Agriculture
P.O. Box 2417
12th and Independence Avenue, S.W.
Washington, DC 20013

Eldon W. Ross, Associate Deputy Chief for Research
(202) 447-2702
FTS 447-2702

J.B. Hilmon, Associate Deputy Chief for the National Forest System
(202) 447-6677
FTS 447-6677

Allen J. Schact, Associate Deputy Chief for State and Private Forestry
(202) 447-3331
FTS 447-3331

Conducts forest biomass energy-related research. The agency coordinates its research activities with Federal and State agencies, as well as universities. Activities include obtaining, analyzing, and projecting national statistics on woody biomass supply and use, as well as research in silviculture, harvesting, and utilization. The agency also administers National Forest lands in a multiple-use approach that includes sales of industrial wood and personal/industrial use fuel wood.

R. Oil Shale

Research and Development

R-01 OIL, GAS AND SHALE TECHNOLOGY
Oil, Gas, Shale, and Coal Liquids
Fossil Energy, DOE

Douglas Uthus, Director
GTN, FE-33, Room D122
(301) 353-2877
FTS 233-2877

Jerry Ramsey (for program information)
(301) 353-2877
FTS 233-2877

Responsible for programs in oil shale conversion to liquid fuels, including the development of a sound technology base for surface and in-situ processes and the investigation of improved environmental mitigation strategies and systems.

R-02 UNIVERSITY OF WYOMING WESTERN RESEARCH INSTITUTE (WRI)
P.O. Box 3395, University Station
Laramie, Wyoming 82071

Wesley E. Barnes, Chief Executive Officer
(307) 721-2211
FTS 328-4211

Serves as the foremost research laboratory for in-situ technology in the United States. Research efforts focus on conversion of oil shale, tar sands, and coal to useful hydrocarbon products. Research functions include resource evaluation, in-situ recovery, environmental control, and fossil fuel characterization. WRI was formerly the Laramie Energy Technology Center.

S. Energy Statistics in Other Federal Agencies

Agriculture

S-01 INPUT MARKETS AND PRODUCTIVITY BRANCH
Natural Resource Economics Division
Economic Research Service
Department of Agriculture
500 12th Street, S.W., Room 408
Washington, DC 20250

Mohinder Gill, Agriculture Economist
(202) 475-3853
FTS 475-3853

BEST COPY AVAILABLE

Provides current and historical statistics on energy use, prices, and expenditures in agriculture by fuel source, such as gasoline, diesel, liquefied petroleum gas, fuel oil, and so on. The office also provides information on grain-based fuel alcohol, including supply/demand, economics, capacity, imports, and energy-related legislation, particularly that affecting alcohol fuels.

Commerce

S-02 BUREAU OF ECONOMIC ANALYSIS
Department of Commerce
1401 K Street, N.W.
Washington, DC 20230

Larry Moran, Information Officer
(202) 523-0777
FTS 523-0777

Plays a major role in the measurement and analysis of U.S. economic activity. The Bureau provides a clear picture of the economy through the development, preparation, and interpretation of the economic accounts of the United States. The accounts provide a quantitative view of the economy's production and distribution, as well as the use of the Nation's output. The Bureau's two monthly journals, *Survey of Current Business* and *Business Conditions Digest*, and the Bureau's other publications are available through GPO (see F-18) and NTIS (see F-17).

S-03 ECONOMIC FIELDS
Bureau of the Census
Department of Commerce
Federal Building 3, Room 3061
Washington, DC 20233
(301) 763-7184
FTS 763-7184

Provides statistical information, including cost of fuels and electric energy and quantity of electric energy.

S-04 OFFICE OF INDUSTRY ANALYSIS
International Trade Administration
Department of Commerce
Washington, DC 20230

Joseph F. Gustaferro
Senior Energy Policy Analyst
(202) 377-4363
FTS 377-4363

Studies various U.S. industries and determines their competitiveness in relation to industries in other countries. The office analyzes both the midterm and long-term energy impacts and potential market share of these U.S. industries. The Senior Energy Policy Analyst provides the energy data for these studies. In addition, the office acts as the Department of Commerce focal point for all energy statistics and makes a determination of the type of energy that will be required in the future. Examples of the studies completed include petrochemical industries, aircraft industries, engineering materials industries, information services, and advanced ceramics.

S-05 ASSESSMENT AND INFORMATION SERVICES CENTER
National Oceanic and Atmospheric Administration (NOAA)
Department of Commerce
Page Building 2, Room 135
Washington, DC 20235

Robert Leffler, Physical Scientist
(202) 634-1822
FTS 634-1822

Compiles State-, regional-, and national-level natural gas, oil, and electric power consumption information based on degree-day data. The office also provides statistical data on season-to-date and seasonal forecast energy consumption (from NOAA 30- and 90-day temperature outlooks) and publishes the weekly, monthly, and seasonal *Climate Impact Assessment, United States: Energy Section*.

Defense

S-06 DIRECTORATE FOR ENERGY AND TRANSPORTATION POLICY
Defense (Logistics and Materiel Management)
Department of Defense (DOD)
The Pentagon, Room 3C838
Washington, DC 20301

William J. Sharkey, Jr., Director
(202) 697-7191
FTS 697-7191

Jeffrey A. Jones, Deputy Director
Energy Programs
(202) 697-9419
FTS 697-9419
Lieutenant Colonel Robert Terapak
Assistant for Petroleum Logistics
(202) 697-9419
FTS 697-9419

Edward J. Dyckman, Assistant
for Mobility Energy
(202) 697-1988
FTS 697-1988

James Carnes, Assistant
for Petroleum Economics
(202) 697-2500
FTS 697-2500

Millard Carr, Assistant
for Facilities Energy
(202) 697-4589
FTS 697-4589

Develops energy supply assurance and supply management policy and energy contingency plans; presents and supports DOD energy positions to other agencies; develops energy budgets and manages conservation programs; monitors and makes recommendations for DOD energy-related research and development, allocation, procurement, and supply problems; and manages the Defense

BEST COPY AVAILABLE

Energy Information System (DEIS), which operates two data bases that inventory worldwide defense energy resources. DEIS-I provides monthly consumption and supply data for petroleum products, including jet fuels, aviation/motor gasoline, and residual fuel oil. DEIS-II reports on energy utilization by DOD installations, including purchased fuels, electricity, steam, and hot water and is used to produce the DEIS Utility Report. Information services are on-line terminal access (available only to other government agencies), reference and referral, and current awareness.

Energy Management

S-07 NATIONAL DEFENSE EXECUTIVE RESERVE DIVISION
Federal Emergency Management Agency (FEMA)
500 C Street, S.W.
Washington, DC 20472

Allan Zenowitz, Division Chief
(202) 287-0760
FTS 287-0760

Collects the latest information on emergencies from regional offices of FEMA and other Federal agencies. Data may be accessed by a computer conferencing system, which keeps track of the time messages are received, provides confidentiality when necessary, and accommodates differences in data entry format to enhance Resource Interruption Monitoring System (RIMS) effectiveness.

Foreign Trade

S-08 PUBLIC AFFAIRS OFFICE
Central Intelligence Agency
Washington, DC 20505

Collects and analyzes information about conventional energy sources in foreign nations. This office has available compilations of statistics in *Economic and Energy Indicators* and *International Energy Statistical Review* (available from NTIS, see F-17).

S-09 FOREIGN TRADE DIVISION
Bureau of the Census
Department of Commerce
Federal Building 3, Room 2179
Washington, DC 20233

Joyce Ware
(301) 763-5140
FTS 763-5140

Provides statistical information on U.S. exports and imports merchandise trade.

Interior

S-10 INFORMATION SYSTEMS DIVISION
U.S. Geological Survey
Department of the Interior
806 National Center
Reston, Virginia 22092

Ted Albert, Data Administrator
(703) 860-6086
FTS 928-6086

Provides oversight for the energy/mineral and other earth science data bases at the U.S. Geological Survey. These include the Petroleum Data System, containing geological and engineering data on 68,000 oil and gas fields and pools, available through General Electric's Mark III time-sharing network. The Oil Shale Data Analysis Program evaluates oil yields in specific shale locations. The National Uranium Data Bank details geologic information on uranium occurrence. The National Coal Resources Data System is a data base developed for national coal resource quantity and quality assessments. The files contain geographic and geologic information on coal resources and are used to calculate resource estimates and depict trends in the occurrence and characteristics of coal. Services are available to Federal, State, and local governments and to private organizations.

S-11 BRANCH OF GEOGRAPHIC DATA
Bureau of Mines
Department of the Interior
2401 E Street, N.W., Room W632
Washington, DC 20241

William Zajac, Chief
(202) 634-1112/1115
FTS 634-1112/1115

Collects and publishes data in the Bureau of Mines *Minerals Yearbook*. Primary areas are international production and foreign trade for all fuel and allied products.

Labor

S-12 DIVISION OF MONTHLY INDUSTRY EMPLOYMENT STATISTICS
Bureau of Labor Statistics
Department of Labor
441 G Street, N.W., Room 2080
Washington, DC 20212

Kim L. Hazelbaker, Director
(202) 523-1461
FTS 523-1461

Compiles and publishes monthly statistics on the number, work hours, and earnings of employees in various industries, including energy industries.

S-13 CONSUMER PRICE INDEX
Bureau of Labor Statistics
Department of Labor
600 E Street, N.W.
Washington, DC 20212

Sharon Gibson, Economist
(202) 272-5177
FTS 272-5177

Betty Rice, Economist
(202) 272-5080
FTS 272-5080

BEST COPY AVAILABLE

Provides monthly prices for residential consumption of natural gas, electricity, fuel oil, and gasoline. Prices are averaged for U.S. cities and 28 Standard Metropolitan Statistical Areas (SMSA), reflecting different geographic areas and population categories. Price indexes for natural gas, electricity, fuel oil, gasoline, and other fuels are also available.

Transportation

S-14 HIGHWAY STATISTICS DIVISION
Federal Highway Administration
Department of Transportation
400 7th Street, S.W.
Washington, DC 20590

David R. McElhaney, Chief
(202) 426-0180
FTS 426-0180

Compiles and publishes statistics on highway use of motor fuels, including total use of gasoline; vehicle registration and driver's licenses issued; Federal financing of State highway systems; mileage of roads and streets, including type of pavement; traffic and travel characteristics, including vehicle-miles traveled; and employment in highway construction. Most data are by State.

Treasury

S-15 STATISTICS OF INCOME DIVISION
Internal Revenue Service
Department of the Treasury
1111 Constitution Avenue, N.W.
1201 E Street, N.W., Room 401
Washington, DC 20224

Dr. Fritz Scheuren, Director
(202) 376-0216
FTS 376-0216

Collects and publishes data on income levels and residential energy tax credits. The division prepares analyses of business energy investment credits, as well as produces statistics on the Crude Oil Windfall Profits Tax.

T. Minority Programs

Research

T-01 RESEARCH PROGRAM
Minority Economic Impact, DOE

Georgia Johnson, Senior Economist
FORSTL, MI-2.1, Room 5B110
(202) 252-8383
FTS 252-8383

Responsible for research, information, and policy analysis to determine the effects of national energy policies and regulations and the DOE's programs on minorities. The programs include the development and operation of a Minority Energy Assessment Model (MEAM) and a minority energy data base as tools in the conduct of analyses of energy programs, policies, and regulations. Some specific goals of the program are the determination of energy usage patterns of minorities and the percentage of disposable income spent on energy by minorities, as well as how DOE programs, policies, regulations, and new energy technologies impact minority energy usage patterns and energy expenditures. Research efforts also include market research and projections and the definition of economic opportunities for minority entrepreneurs in specific energy technology markets.

Education Programs

T-02 MINORITY HONORS VOCATIONAL TRAINING PROGRAM
Minority Economic Impact, DOE

Elmer Lee, Assistant Director for
Research and Education Programs
FORSTL, MI-2, Room 5B110
(202) 252-8383
FTS 252-8383

Provides scholarships for tuition, books, tools, and laboratory fees to needy minority honor students. These efforts offer the opportunity for minority students at several colleges throughout the United States to train in energy-related technologies.

T-03 MINORITY EDUCATIONAL ASSISTANCE PROGRAM
Minority Economic Impact, DOE

Isiah O. Sewell
FORSTL, MI-2.2, Room 5B110
(202) 252-8383
FTS 252-8383

Designed to implement Executive Order Number 12320 of September 15, 1981, this program supports the increased participation of Historically Black Colleges and Universities in all the DOE activities. Current activities are highlighted through a focused effort that provides technical assistance and capability evaluation (TACE). TACE is composed of three activities: (1) technical marketing assistance; (2) capability assessment updating; and (3) management assistance. Through this project, Historically Black Colleges and Universities are given technical assistance in identification of specific research topics of interest to DOE; development of technical and business proposals; development of long-range research programs; and improvement of the general research and development posture of the institution. Where necessary, the program provides information to DOE program offices on the research interest and capabilities of principal investigators at black colleges and universities.

BEST COPY AVAILABLE

T-04 COOPERATIVE DEVELOPMENT ENERGY PROGRAM
Minority Economic Impact, DOE

Georgia Johnson, Senior Economist
FORSTL, MI-2.1, Room 5B110
(202) 252-8383
FTS 252-8383

The purpose of this program is the creation of a technology-oriented labor base for minorities in different segments of the energy industry through a number of cooperative efforts involving industry support of focused educational and development efforts with minority educational institutions and minority businesses. Fundamental constraints of employment creation are mitigated with curriculum development in minority educational institutions and minority business enterprises and with opportunities evolving from technological innovation, new commercial energy products, processes, or services in energy industries. The program includes the implementation of internship and cooperative programs in the energy industries for honor students and the research and development energy programs for faculty and students at national laboratories.

Business Assistance

T-05 MINORITY ECONOMIC DEVELOPMENT PROGRAM
Minority Economic Impact, DOE

Barbara McKee, Assistant Director
Minority Business Enterprises
FORSTL, MI-3, Room 5B110
(202) 252-8383
FTS 252-8383

Advises the Secretary of Energy on the effect of energy policies, regulations, other departmental/management/operating contractors actions on minority business enterprises; and on ways to assure that they are afforded an opportunity to participate fully in the energy programs of DOE. The specific goals and objectives of the Minority Economic Development Program are to provide management and technical assistance to minority business enterprises; to establish and expand the volume of energy-related business in minority communities; and to increase minority business participation in the energy industry. The Minority Economic Development Program activities use these objectives to assist in increasing participation and to more effectively advise the Secretary.

Financial Assistance

T-06 FINANCIAL ASSISTANCE
Minority Economic Impact, DOE

Steve Usera
FORSTL, MI-3.2, Room 5B110
(202) 252-8383
FTS 252-8383

Assists in providing direct loans to minority business enterprises that finance the cost of preparing bids or proposals to obtain DOE contracts or other agreements, including cooperative agreements, grants, loans/loan guarantees, first-tier subcontracts with DOE operating contractors, and contracts with subcontractors of DOE operating contractors. The office also administers a Minority Financial Institution Development Program in which DOE deposits consent order funds in Minority Financial Institutions through the purchase of certificates of deposits from such institutions.

U. Energy Emergencies

U-01 ENERGY EMERGENCY PLANS AND INTEGRATION
International Affairs and Energy Emergencies, DOE

Finn K. Neilsen, Director
FORSTL, IE-23, Room GH060
(202) 252-4000
FTS 252-4000

Addresses energy emergency problem areas through the development of viable solutions and the drafting of new response plans. Through the Division of Plans and Testing, detailed response plans and action plans are developed based on free-market approaches to various energy emergency scenarios. The Division of Studies and Integration concentrates on the range and scope of potential energy emergencies with emphasis on the type and duration of the disruption; the social, economic, and energy issues associated with a shortage; and response planning tasks to be undertaken by public and private sector entities.

U-02 ENERGY EMERGENCY OPERATIONS
International Affairs and Energy Emergencies, DOE

Richard E. Weiner, Director
FORSTL, IE-24, Room GE262
(202) 252-1311
FTS 252-1311

Reviews and analyzes information and data on energy resources and energy emergencies. The office is also responsible for determining the likelihood of an energy shortage or emergency and the magnitude of the consequent risk. The National Security and Emergency Operations Division concentrates on national defense and defense contractor energy requirements during peacetime energy emergencies and conventional and nuclear war. The Division is also responsible for the Continuity of Government and National Emergency Plans, including liaison with other agencies with responsibilities for security and international matters. The Energy Supply Evaluation and Risk Assessment Division continually reviews and analyzes energy resource data for emergency planning, management, and monitoring purposes. In conjunction with the Energy Information Administration and

BEST COPY AVAILABLE

the intelligence community, it identifies and assesses domestic and international data with implications for forecasting energy supply interruptions.

U-03 ENERGY EMERGENCY POLICY AND EVALUATION
International Affairs and Energy Emergencies, DOE

Margaret W. Sibley, Acting Director
FORSTL, IE-22, Room 3G072
(202) 252-2443
FTS 252-2443

Responsible for defining and analyzing policy issues arising from potential energy supply disruptions. The office's focus is on developing policy options for varying scenarios, determining consequences to other political entities (both foreign and domestic), and the major energy end-use sectors. The Policy Division analyzes the effectiveness of individual and combined policy options for dealing with energy emergencies. The Evaluation Division analyzes proposed emergency response system tests designed to simulate energy emergencies and U.S. capabilities.

DOE Research and Development and Field Facilities

The following lists alphabetically DOE Operations Offices as well as those DOE facilities that are not under direct supervision by a university or DOE Operations Office. Facilities that are under such supervision are listed with an asterisk (*) under the appropriate office. The list does not describe the mission or function of DOE's research and development and field facilities; nor does it include the various area offices of DOE or its affiliated installations. Some of the telephone numbers provided are for the switchboard operator of the given facility, who will make the appropriate referral.

Appendix C

Energy Extension Service (EES) State Contacts

The National Energy Extension Service (EES) is a Federal/State partnership authorized by Congress to give personalized information and technical assistance to small-scale energy users on energy conservation and the use of renewable and abundant resources. Every State and Territory receives grants to work closely with families, owners of small companies, and local government officials to help them take practical steps to conserve energy.

DOE does not provide EES grant funds for individual projects. Rather, it channels the EES grant funds to State Energy Offices or the State entity designated by the governor to manage the EES program. The main features of the EES program are: (1) grants, based partially on population, to the States and Territories to establish and operate EES programs; (2) support for self-help projects and use of local organizations and qualified experts; and (3) maximum flexibility to the States and Territories to design useful energy conservation services that are delivered primarily through existing organizations and mechanisms.

BUSINESS CONDITIONS DIGEST (BCD)

. . . a monthly report that helps you analyze the current economy and future trends.

BCD has "a plethora of charts that . . . provide more information and perspective per minute of reading time than anything else you can find," according to Edgar R. Fiedler, former president of the National Association of Business Economists. *(Across the Board,* February 1984.)

BCD contains:

- **Charts** providing a 25-year perspective for about 300 economic time series that cover all major aspects of the economy. Expansions and contractions in the U.S. economy are clearly marked so that the leading, coincident, and lagging characteristics of the series are easy to observe.
- **Tables** listing current data for all 300 series.
- **Appendixes** providing historical data, cyclical turning points, cyclical comparisons, and seasonal adjustment factors.

HANDBOOK OF CYCLICAL INDICATORS

. . . a statistical and technical supplement that helps you make maximum use of the monthly ***Business Conditions Digest.***

The ***HANDBOOK*** contains:

- **Descriptions** of all ***BCD*** series, providing definitions, methods of compilation, coverage, and sources.
- **Historical data** for 1947-82 for all ***BCD*** series.
- **Composite index methodology** explaining the construction of the indexes in step-by-step detail.
- **Reference materials** including—

  Scores for cyclical indicators

  Average leads or lags for cyclical indicators

  Measures of variability

  Business cycle turning dates

  Bibliography

  Addresses of data sources.
